NOT YET CONFIRMED

Senator Allen Has McKenna's Nomination Laid Over.

A. P. A. DENOUNCED BY WHITE.

Nebraska Senator Called Attention to Charges Made by the Bar of the Pacific Coast—Standing of Indiana National Banks—Confirmations by the Senate. Will Issue a Manifesto.

WASHINGTON, Jan. 15.—Almost the entire executive session of the senate yesterday was devoted to the indirect consideration of the nomination of Hon. Joseph McKenna, now attorney general, to be associate justice of the supreme court. The discussion was the result of an effort on the part of Senator Allen (Neb., Pop.) to secure a postponement for two weeks. In the end a compromise was reached deferring consideration until next Friday.

The debate was precipitated by Senator Hoar, who called up the nomination of Mr. McKenna and asked for immediate action. Mr. Hoar said the judiciary committee had investigated most of the charges made and had reached the conclusion that they were without foundation. The most of them had been made by the American Protective association and were founded solely upon the fact that Mr. McKenna was a Catholic.

Mr. Hoar dwelt at length upon this point, exhorting any man who would attempt to inject a question of religion into a controversy over a man's fitness for office. Such an effort was entirely un-American, unpatriotic and should not for a moment receive the consideration of fair minded men. Senator White, of Cal., also spoke of the effort of the American Protective association to interfere and depreciated an appeal to bigotry, prejudice and false claims of patriotism. He spoke of the members of the American Protective association as "fools, who could not be properly characterized in the senate." As for himself he believed Mr. McKenna to be an honorable man, a competent lawyer and a just jurist, and he would support his confirmation.

Mr. Allen interposed an objection to immediate action. He called attention to the importance of the office to which Mr. McKenna had been named, saying that the senate and the American public had a right to demand that the charges should be sifted to the bottom. He said that so far as the opposition of the American Protective association was concerned it did not influence him in the least. There were still other charges which were to his mind far more serious.

He read from letters and newspapers attacking Mr. McKenna's record as an attorney and jurist on the ground of want of legal attainments. He called special attention to an attack made by the bar of the Pacific coast, which he said was deserving of more scrutiny than had been given it. He stated that he understood the charge had been made that large corporations had been instrumental in securing Mr. McKenna's nomination. He thought this matter also should be looked into more thoroughly than the senate had had opportunity to do.

He added that he might himself vote for Mr. McKenna's confirmation, but said that before doing so he desired to be convinced that the assertions made derogatory to Mr. McKenna's character as a jurist were without foundation.

CONFIRMATIONS.
Nominations Acted Upon Favorably by the Senate.

WASHINGTON, Jan. 15.—The senate has confirmed the following nominations:

To be collectors of internal revenue: Indiana—A. E. Nowlin, Sixth district; D. W. Henry, Seventh district. Kentucky—E. T. Franks, Second district; D. N. Comingsore, Sixth district; S. J. Roberts, Seventh district. Indiana postmasters—S. B. Brillhart, Kendallville; L. P. Capin, Greencastle; E. D. Moffett, Hartford City; A. L. Scott, Washington.

Illinois—L. C. Brown, Wheaton; A. H. Keeler, Belvidere; T. W. Brice, Astoria. R. J. Tracewell of Indiana, to be controller of the treasury, N. L. Chew of Indiana, to be assistant register of the treasury; A. L. Lawshe of Indiana to be deputy auditor of the postoffice department.

Indiana National Banks.
WASHINGTON, Jan. 15.—The statement of the condition of the national banks of Indiana at the close of business Dec. 15, 1897, has been received by Controller Dawes. The average reserve held is 40.29 per cent. In the list of resources are: Loans and discounts, \$32,374,279; due from national banks, \$8,049,790; due from reserve agents, \$7,923,795. The gold coin held by Indiana banks in lawful reserve amounts to \$3,507,429, and gold certificates, \$145,839. Among the liabilities are: Capital stock paid in, \$18,792,000; surplus funds, \$4,568,177; national bank notes outstanding, \$4,549,713; individual deposits, \$36,144,263.

Will Issue a Manifesto.
WASHINGTON, Jan. 15.—As a result of a conference between the silver leaders it is understood Chairman Jones of the Democratic national, Butler of the Populist national and Towne of the Silver National Republican committees will issue a joint manifesto next week with a view to securing common action by the three organizations in the political contest of 1898.

Entertained the President.
WASHINGTON, Jan. 15.—The vice president and Mrs. Hobart entertained the president and Mrs. McKinley last evening at a beautifully appointed dinner of 20 covers.

MRS. DORA CLAY.

Her Life Attempted by Clell Richardson, Her Brother.

VALLEYVIEW, Ky., Jan. 15.—General Cassius M. Clay's young wife Dora barely escaped death yesterday at the hands of her brother, Clell Richardson, at whose house she had been boarding ever since she left the general two months ago.

Richardson fired two shots at her with a large pistol at a distance of 20 paces and then fired a shot at Mrs. John Bryant, his mother-in-law who was with Mrs. Clay.

The shooting was the result of a quarrel between Clell Richardson and his brother-in-law, Will Bryant, the former claiming that Bryant was paying too much attention to General Clay's young wife. When Mrs. Clay expostulated Clell grew angry and opened fire on the women.

Richardson is a desperate character and, so far, no attempt has been made to arrest him. Clell's brothers are guarding the women folks and swear they will kill Clell if he attempts to molest them.

MANAGER GONE.

Kentucky Trust Company Said to Have Been Left in Bad Shape.

LOUISVILLE, Jan. 15.—William Reincke, vice president and manager of the Kentucky Trust company, has left the city, leaving behind him a deed of assignment, but no property of consequence. His personal liabilities are not known, but are believed to be large. The Trust company appears to have been looted. It is said that not only is its whole capital stock of \$50,000 dissipated, but that the stockholders will be called upon to make good a large number of bonds which the Trust company had issued and guaranteed but which have no assets back of them. The deposits have dwindled down to about \$5,000, and there was no money or collateral in the vault. Whether Reincke is subject to criminal prosecution the directors of the Trust company will not say.

COLUMBUS CONVENTION.

Miners' Committee Recommends an Advance of Ten Cents a Ton.

COLUMBUS, O., Jan. 15.—The United Mine Workers' convention had a lively executive session yesterday considering the report of the scale committee. The committee recommended that an advance of 10 cents per ton be demanded in the price of mining and that the differential of 9 cents per ton between the Ohio and Pittsburgh districts be maintained. There was a lively debate over the question of the differential, the Pittsburgh delegates opposing it. The convention adjourned without taking action.

Coal Operators and Miners.

CHICAGO, Jan. 15.—Nearly 600 coal miners and operators, representing Illinois, Indiana, Ohio and Pennsylvania, will meet in joint convention on Monday for the purpose of bringing about, if possible, the adoption of a wage scale and working agreement in order to prevent a general strike next summer.

SEVEN INJURED.

Walls of Two New Buildings Fall in Baltimore.

BALTIMORE, Jan. 15.—The walls of two new houses being erected on Twenty-second street near the York road fell in late yesterday afternoon and seven men were injured, two probably fatally. Following is a list of the injured: Lorenzo Carter, R. J. Warner, Thomas Burns, William Adams, William A. Montague, William A. Everett, William A. Widener.

House and Senate.

WASHINGTON, Jan. 15.—Senator Hoar yesterday introduced in the senate a resolution changing the date on which the term of the office of president is to begin from the 4th of March to the 30th of April, the present incumbent to continue in office until April 30, 1901. Terms of senators and members of congress to expire at noon on the same date. Senator Quay introduced a resolution to investigate the burning of two Seminole Indians by a mob in Oklahoma Territory, after which the senate went into executive session on nominations. The house passed the agriculture appropriation bill.

AMERICANS ARRESTED.

Suspected of Complicity in Robberies of Great Magnitude.

MEXICO CITY, Jan. 15.—Four Americans have been arrested here and are rigorously interrogated, being suspected of complicity in robberies of great magnitude. The gang numbers 12 men.

AS REGARDS CUBA

Madrid Cabinet Says Havana Riots Will Not Affect Reforms.

STRICT MILITARY DISCIPLINE.

Will Be Enforced in Madrid and Abroad. What the United States Should Realize. United States Squadron Leaves Hampton Roads—News From Consul General Lee.

MADRID, Jan. 15.—It was pointed out at the cabinet council yesterday that the members of the Cuban government had strongly protested against the attacks made by the Havana papers on the Spanish army. The cabinet resolved that the disorders in Havana should not affect the recent reforms. Strict military discipline will be enforced both here and abroad; and if necessary, measures will be submitted to the cortes for reforming the army laws.

"There are rumors that the Carlists had planned an armed rising near Alicante (in Valencia) but abandoned it on the protests of the agent of Don Carlos, the Marquis Cerralbo."

The police precautions have been redoubled in the vicinity of the United States legation and around the residence of the United States minister, General Stewart L. Woodford.

A dispatch from General Blanco was read saying that quiet had been restored at Havana and the troops withdrawn. It is the belief in official circles that the events at Havana have provoked an agitation among officers of the Madrid garrison.

CUBAN CRISIS.

What the United States Should Begin to Realize.

ST. LOUIS, Jan. 15.—A Washington special to The Globe-Democrat says: "Without encouraging any war scare the people of the United States might as well realize two things: There is no way out except through intervention or recognition of Cuban independence, and either course is likely to lead to war." This advice comes from Havana on the best of authority.

Squadron Leaves Hampton Roads.

HAMPTON ROADS, Jan. 15.—The strongest squadron ever assembled under the American flag steamed out from Hampton Roads and headed southward this morning. The destination is the Bahama channel between the Bahama Islands and Cuba. Admiral Sigsbee's instructions are to make Key West, five hours run from Havana, his headquarters for the rest of the winter. Power for the rest of the winter. Power for the rest of the winter. Power for the rest of the winter.

All Quiet at Havana.

WASHINGTON, Jan. 15.—The last news from Consul General Lee came to the state department late yesterday and was at once sent over to the white house. It went to confirm the previous reports and was a simple statement by General Lee that yesterday all was quiet in Havana.

DISPUTED TERRITORY.

Commissioner Smith Runs Up the American Flag in Alaska.

VICTORIA, Jan. 15.—Collector of Customs Milnes is in receipt of a letter from Skagway in which it is alleged that Mr. Smith, United States commissioner for Dyea and Skagway, claims a strip of land three miles down from the head of Lake Bennett, which is near the boundary as defined by the United States and which would give the United States control of the territory from the coast to the lake.

The commissioner, the writer alleges, has ordered all locators of lots to have them recorded with him. A party of Americans, the writer says, followed the commissioner's direction by hoisting the American flag just below the police barracks where the British flag was flying. The Canadian mounted police demanded an explanation and after some parleying the flag was hauled down and an apology tendered.

The same letter contains information that Bernard Moore is having more trouble with squatters on land which he claims at Skagway. Early in the present month, it is alleged, he turned out with an armed force and drove squatters off the land. It is also stated that some firing was done, but nobody was hurt.

STATE'S TESTIMONY IN.

Lueltger Will Now Have a Chance to Prove His Innocence.

CHICAGO, Jan. 15.—Direct testimony on the part of the state against Adolph L. Lueltger, the alleged wife-murderer, was finished yesterday. Dr. Dorsey's cross examination by attorney Harmon resulted disastrously to the defense, the sausage-maker's lawyer bringing out emphatic reiterations of matter material to the state's case.

COMPOSITOR'S CRIME.

Shoots His Sweetheart and Kills Himself Because of Jealousy.

CINCINNATI, Jan. 15.—Louis Alfeld, a compositor at the Enquirer office, shot his sweetheart, Minnie Pachner, inflicting a fatal wound, and then shot and killed himself. Jealousy is supposed to have been the cause. They had had a brief quarrel just before the shooting.

Frances E. Willard.

NEW YORK, Jan. 15.—Miss Frances E. Willard, the chief executive of the Woman's Christian Temperance union, arrived in this city yesterday. She expects to remain here several weeks looking after temperance work.

Weather.

Indiana—Snow or rain. Ohio—Rain, beginning as snow on the lakes.

CASSIE HAS GRIT.

Young Woman Takes Her Father's Place as a Mail Carrier.

ENGLISH, Ind., Jan. 15.—Miss Cassie Natrik, daughter of mail contractor Thomas Natrik, on the Oriole and Eckerty mail route, line 17 miles long, is delivering the mail on horseback. Natrik was thrown from his horse receiving a compound fracture of his right shoulder, which, owing to his advanced age, will incapacitate him for months. Miss Natrik declares that she will carry the mail till he recovers, or till the close of the contract. The task is one that few men care to perform during the winter months. She is 17 years old.

NOTES OF THREE STATES.

Albany, Ind., will have an electric light plant.

Machine coal miners at Central City, Ky., are on strike.

A train of coal cars was wrecked near Brinkhaven, O. Two men seriously injured.

Albert Evans, 16 years old of Lima, O., is dead from injuries received while skating.

Joe S. Hill, cashier of the Deposit bank at Central City, Ky., died suddenly of apoplexy.

Farmers in the north part of Wayne county, Ind., are losing whole herds of hogs from cholera.

Will T. Jarvis, a pressman at Stuebenville, O., shot himself through the heart. Ill health caused despondency.

The grand jury of Montgomery county, Ind., has indicted Will Thompson for assault with intent to murder his wife.

The annual meeting of the German singing societies of Indiana, Ohio and Illinois will be held at Muncie, Ind., this year.

Mrs. Frank Jameson of near Washington Court house, O., accidentally splashed concentrated lye in her eye. The sight was destroyed.

Mrs. Thomas Brackney has received judgment against Dr. Fred Nussel of Brazil, Ind., for \$1,000 for improper treatment of a broken leg.

SPREADING.

Tuberculosis Reported to be on the Increase Among Ohio Animals.

COLUMBUS, O., Jan. 15.—The Ohio State Veterinary Medical society, which convened in this city, had submitted to it a report on contagious diseases among domestic animals in Ohio. The committee reports an extraordinary prevalence of tuberculosis among cattle, horses, sheep, hogs and other animals in this state.

The disease is not confined to animals in any particular part of the state. Its germs have been detected all over the state. The disease seems to be pretty general.

STOLEN CHECKS.

New York Banks Notified to Look Out For Them—Some Have Been Raised.

NEW YORK, Jan. 15.—The banks of this city have been notified that a large number of checks had been stolen from letterboxes in Detroit, Buffalo, Minneapolis, St. Paul, Toledo, Cleveland, Kansas City and Milwaukee by an organized gang of thieves. Some of the checks have been raised and altered by means of acids. In several instances the thieves have been successful in getting the checks cashed.

Jockey Club Stakes Closed.

LOUISVILLE, Jan. 15.—Entries to the spring stakes of the new Louisville Jockey club closed today. Eleven stakes will be run during the 15 days, beginning May 4. Three of these events—the Kentucky derby, \$50,000, Clark stakes, \$4,000, and the Kentucky Oaks, \$3,000,—were closed some time ago.

What Kurtz Says of the Threat.

COLUMBUS, O., Jan. 15.—C. L. Kurtz, leader of "the combine" in the fight against Senator Hanna, is quoted in an interview as saying in reply to the threat to remove him from the Republican national committee: "I was elected by the Ohio delegation and no one else has the power to remove me."

McCoy and Hardenbrook.

AUBURN, Ind., Jan. 15.—Vernon Hardenbrook of Walkerton, heavy-weight pugilist of Indiana, has signed articles of agreement to stand before "Kid" McCoy for four rounds or forfeit a purse of \$400. The contest will occur in Chicago, Indianapolis, Pittsburg or Cleveland. The exact date and place has not yet been determined.

Died From Bursting a Blood Vessel.

MADISON, Ind., Jan. 15.—Louis Stiersdorfer, a leading merchant of Carrollton, Ky., broke a blood vessel while running to catch a steamer at Carrollton. Soon after getting aboard he was paralyzed, dying after reaching this city. His remains were returned home for burial.

Weighted 400 Pounds.

BEDFORD, Ind., Jan. 15.—Perry Williams, aged 60, the largest person in this county, if not the state, is dead at Williams, seven miles west of here. His average weight during the past few years was 400 pounds. He was quite wealthy and prominent in this vicinity.

Narrow Escape.

SULLIVAN, Ind., Jan. 15.—George Bass, who conducts the McCammon House barber shop, had words with Charles Lancaster, a barber employed by him. Lancaster drew a revolver and fired at Bass, the bullet just grazing his cheek. Lancaster has been arrested.

Barn and Tobacco Burned.

ENGLISH, Ind., Jan. 15.—Donald Granger's large tobacco barn burned with 7,000 pounds of No. 1 tobacco and a lot of lumber, intended for a new house. The loss, independent of the barn, which was in good condition, will net \$1,200. There was no insurance.

Hogs Attacked Him.

ENGLISH, Ind., Jan. 15.—While in a pen killing hogs, Samuel Peebles was thrown by one of the animals and, before he could be rescued, was badly lacerated on head, body and legs by the hogs, which attacked him viciously.

Will Try Again.

SOUTH BEND, Ind., Jan. 15.—Despite the defeat of the curfew ordinance, local agitators, encouraged by action in Indianapolis and Muncie, will have the measure reintroduced.

Indiana Postmasters.

WASHINGTON, Jan. 15.—Indiana postmasters were appointed yesterday as follows: Mosby, America E. Mosby; Watkins, Charles Woods; Waverly, Cyrus W. Mackenzie.

Horse's Fatal Kick.

SEYMOUR, Ind., Jan. 15.—William Sparks of near here is dead. Several days ago a horse, frightened by a dog, kicked Mr. Sparks in the stomach. He died in great agony.

BOARD OF EDUCATION

Colleges Said to Have Agreed Upon a Reorganization.

OLD PENSIONER DISAPPEARS.

Gritty Young Woman Who Assumes Her Disabled Father's Duties as Mailcarrier. Unknown Young Man Killed at North Vernon by Cars—Burst a Blood Vessel. Raised Gas Rates.

INDIANAPOLIS, Jan. 15.—The state board of education adjourned yesterday till next Friday when another meeting will be held for the completion of an educational bill which it is desired shall receive the support of both the state and nonstate colleges. It is understood there has been an agreement between the two sides by which the state board of education will be reorganized by giving the nonstate colleges two representatives on the board and the county superintendents but one. To make this room the two city superintendents and one of the state college representatives will be dropped. The details of the plan have not as yet been made public.

AGED COUPLE WED.

Groom's Third and the Bride's Fourth Venture.

INDIANAPOLIS, Jan. 15.—A marriage return was made to the county clerk's office yesterday which shows Henry M. Whittinger, 60 years old, a farmer of Nora, and Esther Jane Hahn, 80 years old of Broad Ripple, were married Jan. 12 by the Rev. George W. Gutter at Broad Ripple. The return shows that this was the third marriage of the bridegroom and the fourth marriage of the bride. The bridegroom was born at Nora, while the bride's birthplace was Millersburg, Ky.

Bank Directors' Statement.

TERRE HAUTE, Ind., Jan. 15.—The directors of the National State bank of this city have made the following statement regarding the troubles of ex-Cashier Donoghue: "The directors of the National State bank authorize the statement that the causes leading to the dismissal of Mr. Donoghue in no wise involved dealings with Russel B. Harrison or his road."

Pensioner Disappears.

DANVILLE, Ind., Jan. 15.—Randolph S. Beck, who came here last summer from the Marion Soldiers' Home and married a Mrs. Alexander, has mysteriously disappeared. Last December he went to Indianapolis to draw his pension and he never came back. His wife considers herself deserted. Beck's wife is aged 80, one-half of his own age. His pension amounted to \$17 per month.

Fell Under the Wheels.

NORTH VERNON, Ind., Jan. 1.—An unknown young man about 20 years old, well dressed, with smooth face, and weighing about 160 pounds, was instantly killed in this city late yesterday. He attempted to board a westbound freight train, and slipping under the wheels was cut in two.

McCoy and Hardenbrook.

AUBURN, Ind., Jan. 15.—Vernon Hardenbrook of Walkerton, heavy-weight pugilist of Indiana, has signed articles of agreement to stand before "Kid" McCoy for four rounds or forfeit a purse of \$400. The contest will occur in Chicago, Indianapolis, Pittsburg or Cleveland. The exact date and place has not yet been determined.

A Shattered Nervous System.

FINALLY HEART TROUBLE.
Restored to Health by Dr. Miles' Nervine.

MR. EDWARD HARDY, the only manager of Shepard Co.'s great store at Briceville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to but a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nervine. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

ruary 1, 1898.

The republicans of the Fourth Con-
gressional District of Indiana, are invited
to meet in delegate convention, at the city
of Greensburg, on Tuesday, February 1,
1898, at 11:30 o'clock a. m., for the pur-
pose of selecting a Republican District
Committee.

The representation in said convention
will be one delegate and one alternate
delegate for every 200 and fraction thereof
of 100 or more votes cast for Henry G.
Thayer, elector at large for the state of
Indiana, at the election held Nov. 3, 1896.

The apportionment of delegates to the
several counties of said district is as fol-
lows:
Bartholomew.....16
Brown.....4
Dearborn.....14
Decatur.....14
Jackson.....13
Jefferson.....18
Jennings.....10
Ohio.....10
Ripley.....13
Switzerland.....8

Total.....114
The county committee of each county
will apportion the delegates to the various
precincts, wards or townships, and give
notice of the place and hour of such meet-
ings, the date of which is January 22, 1898.
The business of the meeting is to select
one delegate and one alternate to the dis-
trict meeting, and one member of the
County Central committee.

Notice of such meetings shall be given
by publication in the republican press
of the county at least ten days before such
meeting; and if there be no paper, then
by posting five notices in each precinct.
The county committee will meet on
January 20, 1898, at 2:00 o'clock p. m., to
organize by electing chairmen and vice-
chairmen, and provide for the selection of
a secretary and a treasurer.

On behalf of the committee, the re-
publicans of Decatur county, and the
citizens of Greensburg, I extend to all a
hearty invitation to be present at the dis-
trict meeting.

The call and business being made by
order of the State Central Committee.
JAMES E. CASKEY,
District Committeeman Fourth District.

REPUBLICAN TOWNSHIP CONVEN-
TION.

The republicans of the several town-
ships of Jackson county will meet in
mass convention at such places as the
township committee may select, on
Saturday Jan. 22, 1898, at 2 o'clock p. m.
for the transaction of the following
business:

First—Elect one member for the
county central committee from each
voting precinct in the county who will
meet at Brownstown on Saturday Janu-
ary 24th, 1898, for the purpose of
electing a county chairman and vice
chairman.

Second—Elect delegates and alter-
nate delegates to the Fourth Congres-
sional District convention to be held at
Greensburg, Ind., on Tuesday Feb. 1st,
1898, for the purpose of electing a mem-
ber of the state committee for said dis-
trict.

The townships are entitled to the fol-
lowing number of delegates and alter-
nate delegates:

Township Conventions.

In pursuance to a call of the county
chairman the Republicans of Jackson
township will meet at Seymour in con-
vention on Saturday, January 22, 1898,
at 2 o'clock p. m. at the city building
for the purpose of selecting members
for the county central committee and
to elect delegates and alternates to the
4th congressional district convention to
be held at Greensburg.

TAXATION OF INSURANCE POLICIES.

The supreme court has decided
against the board of tax commissioners
on the question of taxing a certain
class of insurance policies, which estab-
lishes the fact that the law as it now
exists does not authorize such taxation. The
issue will now arise as to whether or
not such property should be taxed. It
is beyond dispute that many wealthy
men of the state have invested largely
in insurance in order to evade taxa-
tion and thus perhaps millions of dol-
lars are kept off the tax duplicate. To
prevent the enactment of a law making
such property taxable, interested parties
are talking about the poor man's
insurance. But that is very cheap talk
and could deceive only the ignorant.
The poor man, or the man of ordinary
means, carries fraternal or the ordinary
life policy, which would not be reached
by such a law. It is the rich man's
investment that would be
placed upon the tax duplicate, and
there are many intelligent citizens who
think that such a law would be just.

The outspoken expressions from all
parts of the country in reference to the
republican victory in Ohio show that
the republicans generally are loyal to
party organizations as well as to party
principles.

The Pleasant Grove correspondent to
the Brownstown Banner makes some
forcible objections to the proposed
gravel road from Ratcliff Grove to Brad-
den bridge. The matter is to be settled
by election February 10.

The figures for 1897 showed that the
United States furnished more than one-
half of the wheat required by European
importing countries. Our exports of
American wheat and flour aggregated
182,000,000 bushels out of the world's
shipments of 320,000,000 bushels.

Deafness Cannot be Cured
By local applications as they cannot
reach the diseased portion of the ear.
There is only one way to cure deafness
and that is by constitutional remedies.
Deafness is caused by an inflamed
condition of the mucous lining of the
Eustachian tube. When this tube is
inflamed you have a rumbling sound
or imperfect hearing, and when it is
entirely closed, deafness is the result
and unless the inflammation can be
taken out and this tube restored to its
normal condition, hearing will be de-
stroyed forever; nine cases out of ten
are caused by catarrh, which is nothing
but an inflamed condition of the mucous
surfaces.

We will give One Hundred Dollars
for any case of deafness (caused by cat-
arrh) that cannot be cured by Hall's
Catarrh Cure. Send for circulars, free.

The Demand for Corn.

One of the most satisfactory com-
mercial features of 1897 has been the
increased demand abroad for corn.
During the month of December nearly
twice as much corn went to Europe
as in the corresponding month of 1896.
The people of Europe are slowly learn-
ing that corn is good for man as well
as beast. The total exports of corn
last year amounted to 186,000,000
bushels, or nearly 70,000,000 bushels
more than in any previous year. In
the six preceding 1897 the average an-
nual exportation of corn was only 66-
000,000 bushels. It is clear, therefore,
that the various efforts which have
been made to bring this king of Ameri-
can cereals into favor with foreigners
are beginning to bear fruit. There is
no country in the world that can in any
wise compete with the United States in
growing corn, and if we can establish a
large and increasing market abroad for
the product, it will bring our farmers
untold wealth. What is most needed
to insure a general demand for corn
abroad is a knowledge of preparing it
for the table. Of the large amount of
cornmeal sent to Ireland during the
famine many years ago, much was
wasted, as the poor people could add
nothing to it but water and did not
even know how to prepare hoe-cakes.

FOR ALL WOMEN

NINE-TENTHS of
all the pain
and sickness from
which women
suffer is caused
by weakness or
derangement in
the organs of
menstruation.
Nearly always
when a woman is not well these
organs are affected. But when
they are strong and healthy a
woman is very seldom sick.

Is nature's provision for the regu-
lation of the menstrual function.
It cures all "female troubles." It
is equally effective for the girl in
her teens, the young wife with do-
mestic and maternal cares, and the
woman approaching the period
known as the "Change of Life."
They all need it. They are all
benefitted by it.

BRADSTREETS' REVIEW.

Distributive Trade Quiet Owing to Mild
Weather.

NEW YORK, Jan. 15.—Bradstreets of
today says: Distributive trade remains
rather quiet, mild weather throughout
the country tending to check distribu-
tion of winter goods. Prices generally
remain steady or tend upward, except
for some grades of iron, and orders for
spring trade which are received are en-
couraging.

Industrial activity is most manifest at
the west, where the demand for iron is
very large. A feature of the week was
the placing of an order by one railroad
for 100,000 tons of steel rails, with
smaller orders aggregating in the neigh-
borhood of 25,000 tons more. Pig iron
production is now at an unprecedented
rate, the furnace capacity being esti-
mated at 1,000,000 tons a month.

At the south manufacturing activity
is a feature, sales of iron being very
heavy. A good export demand for cot-
ton and grain at steady prices is a fea-
ture.

At the east a number of strikes
against wage reductions are reported or
expected in the cotton industry.

Some woolen mills, working on heavy
men's wear goods, are refusing orders,
their capacity being fully booked.

Anthracite coal production, it is
hoped, in that trade, will be restricted
sufficiently to allow of the advance of
20 to 40 cents per ton being maintained.

Weather has been disappointing in
the northwest, but an improvement in
the demand developed at some centers
as the week advanced. The rush to Al-
aska has already begun on the Pacific
coast. Freight charters are reported
lower.

Export trade continues large, a gain
of 8 per cent on the total export of bread
stuffs, cotton, mineral oils, cattle and
hogs and provisions being shown both
both for December and the calendar
year.

The recent falling off in wheat ex-
ports prove, as was indicated last week
in Bradstreets to have been due to the
usual holiday cutting and not to any
falling off of demand from abroad. The
total export of wheat (flour included as
wheat) from the United States and
Canada for this week amounted to 56-
135,166 bushels, against 3,481,000 bush-
els last week.

HOLDS THE RECORD.

W. T. Lundrum World's Youngest Thirty-
Second Degree Mason.

MAYFIELD, Ky., Jan. 15.—Will T.
Lundrum of this city bears the distinc-
tion of being the youngest Mason on
record. He was 21 years old Oct. 30,
1894, and according to the laws of Ken-
tucky was legally of age on the night of
Oct. 29, when he took his first degree.
On Nov. 26, 1894, he passed to the sec-
ond degree and Dec. 24, four weeks later,
he received the third and last degree in
the York Rite. By special dispensation
he received the four degrees in Capitu-
lar Masonry the same night he was
raised to the third degree in the Blue
lodge. The following afternoon he re-
ceived the Red Cross degree and at
night was made a Sir Knight, all with-
in five days less than two calendar
months. On Jan. 17, 1895, at Louisville,
in a class with his father and grand-
father, he received from the fourth to
the 32d degrees in the Scottish Rite.
His last step was taken on Feb. 22, 1895,
when he was made a Noble of the Mys-
tic Shrine at Louisville.

MURDERER HANGED.

Killed a Man, Woman and Boy—Made a
Confession.

RICHMOND, Va., Jan. 15.—Archie
Lockely (colored), a triple murderer was
hanged here yesterday. There was a
large crowd present and the sheriff and
his deputies had to produce pistols to
prevent some of those present from forc-
ing their way into the inclosure around
the scaffold. Death was instantaneous.
Lockely made a full confession.

Lockely had been living for several
years with Ella Chapman, and on Oct. 12,
last, went to her house and a quarrel en-
sued which ended in a fight. When the
woman's nephew, George Lee, started for
an officer, Lockely seized a gun and shot
him; then shot at Charles Chapman, but
missed him. He then shot Ella Chap-
man, and when he saw the woman trying
to make her escape, shot her.

DEAN & CO.

Trial Begun on Charges of Conspiring to
Defraud.

NEW YORK, Jan. 15.—The opening
examination in the case of E. H. Dean
& Co., charged with conspiracy to de-
fraud, was begun yesterday afternoon,
Magistrate Flammer presiding. Several
witnesses testified to having given the
firm money for investment.

The hearing was adjourned until
Thursday. The witnesses admitted that
they had given money to Dean & Co.
for the purpose of speculation and to
have complete control of it. In the
opinion of the attorneys this admission
is very favorable to the defense.

A STRONG BLACKSMITH.

How Mr. William Creed, of Shelbyville, has
Obtained His Strength.

From the Democrat, Shelbyville, Ind.

One of the prominent blacksmiths of Shel-
byville, Indiana, is Mr. William Creed. He
has been in the business for a number of years
at his present stand, and is a first-class work-
man. Like the village blacksmith, from early
morn till night the anvil rings from the strokes
of his heavy hammer. But, unlike most of
the blacksmiths we read about, Mr. Creed was
not always so stout and healthy, although his
brawny right arm always did its duty well
when the body gave it power. Although Mr.
Creed is in good health now, and can swing
the hammer as hard as ever, for more than a
year past he was in very poor health. Mr.
Creed's trouble was inflammatory rheumatism
in its worst form.

A reporter, while in Shelbyville a few
days ago, chanced to meet Mr. Creed, and in
the conversation an allusion was made to
that gentleman's illness. "Yes, I was a
victim of inflammatory rheumatism," said
he, "and I had a bad case of it. But I man-
aged to pull through in rather a marvelous
manner."

The reporter induced Mr. Creed to relate
the whole circumstance regarding this ex-
perience.

"It was about a year ago last February,"
said Mr. Creed, "that I began to notice I
had the rheumatism. I was exposed to the
severe cold and damp weather considerably,
and this, I suppose started the disease. The
first symptoms of it was noticed one night,
when my limbs began to pain me and I was
restless. My joints ached, and in a few days
my feet and ankles had swollen. The swell-
ing would go down, and then form again.
This, of course, always gave me great pain, and
I soon found that I had a genuine case of
rheumatism. I had observed that cases of
rheumatism are seldom cured, so I thought
it was not worth while to doctor for it. But

A Fake.

The report that John Sparks was kicked by a horse yesterday and killed turns out to be a fake as Sparks is in town today "without a scratch" as he put it. All the the REPUBLICAN has to say about it is that the report was published in good faith and it was a good "item" where true or not.

It is a plain fact that twenty per cent deaths in our larger cities are caused by consumption; and when we reflect that this terrible disease can be forestalled by Dr. Bull's Cough Syrup, shall we condemn the sufferers for their negligence, or pity them for their ignorance.

Death of Miss Frances E. Smith.

This morning Jay C. Smith received a message announcing the death of his sister, Miss Frances E. Smith, last night at Nashville, Tennessee. Two days ago a telegram came stating that she was seriously ill. Her father, Rev. T. C. Smith, of Alexandria, received like information and left at once for her bedside. He found her near death's door, but hope was not all gone. There seemed to be a slight change for the better, but this was only temporary. She died some time during last night. Her father left Nashville this morning with the body and arrived here this afternoon at 3:35 o'clock. He was met at Louisville by Jay C. Smith. The remains will be taken to his home on North Chestnut street immediately after the arrival of the train. Monday the remains will be taken to Franklin for burial.

Miss Frances E. Smith was born at Middleport, O., Nov. 15, 1872. When she was a small girl the family moved to Aurora, Ind., where they resided ten years. Miss Frances entered Franklin college, where she took the full classical course, graduating in 1894. The next two years she spent as a teacher in Selma University, at Selma, Alabama. On account of ill health the next year she remained at home, rendering valuable assistance to her father in his pastoral duties at Alexandria. Last fall she accepted a position in Roger Williams University, at Nashville, where she did, as she always had, most acceptable work. She spent her last holiday vacation here with her brother, having left for her post of duty only two weeks ago. Her sudden death is a sad blow to the family and her large circle of friends.

BUSINESS NOTES.

William Van Dewalla is in the city from Dudleytown on business.

White river continues to recede and the lowlands are about free from water. John P. Clark today sold his buggy harness and horse to James Love, of the Ridge.

Alonzo Wishman and Miss Lydia Wishman, of White Creek, drove to the city today to shop.

Dr. W. E. Gerrish this morning received a mammoth mastodon tooth from a friend in South Dakota.

George Winchell and Miss Ida Winchell, of Washington county, came here yesterday to purchase goods.

Choice fresh meats, sausages, spareribs, bones, dressed poultry at Sot-tong's.

A light rain fell again last night and the clay roads are in an almost impassable condition today.

George N. Ritz, of Cortland, is recovering from injuries received by the running away of his team the other day.

Mrs. George Rinebold went to Brownstown today to visit her father-in-law, Philip Rinebold, and family.

RAILROAD RUMBLINGS.

Roadmaster Welch, of the B. & O. S. W., came up to the city this morning on railroad business.

The new J. M. & I pay car came in Friday. It is brand new and finished up in the finest style. This is its first trip.

John R. Lemon, of the yard, who had his ankle badly sprained by falling from an engine is able to walk out again.

Baggage man Lewis, of the J. M. & I., who was overcooled with heat July 3 is about but unable to take his position yet.

Sold at Auction.

The Crothersville butter and cheese factory was sold at public auction, Saturday. James Lewis, one of our prosperous farmers, was highest bidder, receiving the plant for the sum of \$905. The establishment in the first place cost \$1,650. Mr. Lewis has a bargain which will net him some little gain if he devotes as much energy and foresight as he has given to farming. In fact we are glad it fell into hands so that it will help the business interests of the town as it has done in the past.—Crothersville Commercial.

Use of Crude Oil By B. & O. S. W.

For some time the Baltimore and Ohio Southwestern Railway Company has been experimenting with crude oil for kindling fires in locomotives, in place of using cord wood, and the results obtained have been so satisfactory that it will hereafter be used on the whole line.

During the month of November, 1897, at the company's shops, which are located at Washington, Ind., and Chilli-cothe, O., 1,226 fires were started with crude oil, at a cost of \$17.32, or 141 cents per fire. To have started the same number of fires with wood the cost would have been \$306.00, or \$24.96 cents per fire. This represents a saving of \$288.68, and is very satisfactory.

Big Concert Armory Tonight.

The Ton-ka-way Concert Co. played to a big house last night. They will present the laughable comedy, Mr. Black in New York, tonight. This is said to be one of the funniest two act farce comedies ever presented on any stage. The versatile comedian, Ed. Lesley, will pilot the title role.

JOHN A. ROSS.

Frought Here.

The remains of Lincoln Mitchell who lost his life in a tussle with his wife at Indianapolis the other day, were brought here this morning and buried this afternoon. Deceased was a son of Hiram Mitchell, of this city.

In Olden Times

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well informed people will not buy other laxatives, which act for a time, but finally injure the system. To buy and reproduce famous paintings involves an expenditure that could hardly be borne unless as in the case of the Youth's Companion, the enterprise is sustained by the approval of more than five hundred thousand subscribers. The Companion's Souvenir Calendar for 1898, a series of charming figure-pieces, faithfully copied in colors and embossed in gold, is recognized as one of the richest and most costly examples of this form of art. Yet every new subscriber receives it without additional charge. Moreover, the paper is sent to new subscribers every week from the time the subscription is received until January, 1898, and then for a full year to January, 1899.

The popular price of the Companion, \$1.75 a year, and the character of its contents, make it a paper for every household. Exceptional attractions are promised for the fifty-two numbers to be issued during 1898. The Rt. Hon. W. E. Gladstone, the Hon. Thomas B. Reed, Rudyard Kipling, Lillian Nordica, John Burroughs, W. D. Howells and Max O'Rell are prominent in the long list of eminent contributors named in the Companion's announcement, which will be sent free to any one addressing

What Advertising Is.

Advertising may be done in a thousand ways. Any method which tells anybody about anything is advertising. Advertising is anything which conveys a message about a business or a product.

If a man opens a store and tells his friends about it, he is advertising the store.

If he prints his announcement on cards and hands them to the passerby, he is advertising the store.

If he puts his sign above the door, or goods in the window, he is advertising the store.

If he makes a hundred duplicates of his sign and nails them on fences or dead walls where people can see them, he is advertising.

If he joins a church or a club, or a secret society, his name and his business will become known, and he will still be advertising.

If he causes his sign or his card to be reproduced and printed in a newspaper he is doing the same thing that he did when he tacked the sign on the fences or handed the card to the passerby. He is putting his sign into the house of every reader of that paper.

This hypothetical man is a retail dealer. He is in direct contact with the people to whom he seeks to convey the news of his enterprise. The principle is exactly the same with the maker or handler of goods that are to have a more local sale.

Of all the ways of advertising, the best, most certain and cheapest is that of using the columns of a good newspaper. Intelligent people with money to spend always read the papers—Press and Printer.

CHURCH NOTES.

There were three accessions to the Baptist church last night.

CAN'T GET REST.

Sleeplessness Common Among the Aged.

Thin, Pale, Inactive Blood the Underlying Cause.

Restful Sleep from Better Blood Supply.

Paine's Celery Compound Fills the Arteries.

Multiplies Number of Vital Red Corpuscles.

There are degrees of sleeplessness from the wide awake state to the sleep which does not refresh and has in it only the mockery of rest.

Such sleep is not tired nature's sweet restorer. Dreams have power to torture and to depress. Sleep, therefore, is not always rest, but trouble, and a troubled sleep brings to the brainworker loss of power for thought and labor.

It is a well known fact that for any part to perform actively its duties, it must have an abundance of blood; but when the power of locally regulating the supply of blood in the brain is impaired because of insufficient nerve power the tired brain grinds the same old grist over and over till nervous prostration, paralysis or hysteria ensues.

The cause of sleeplessness is so clear that the cure is equally apparent. The nerves must recover their grip. The health wrecking laxity of the blood vessels must be corrected. The answer to how this is to be done is:

Feed the exhausted nerve tissue with Paine's celery compound.

By thus acting on the nerves Paine's celery compound is able to regulate the blood supply and permanently banish sleeplessness that shortens so many lives, especially among those beyond middle age. In addition to this indirect control over the circulation, Paine's celery compound directly increases the amount of blood in the arteries and arteries the purifying organs to drive out impurities that often lurk in it undeveloped for years till age or a "run down" condition allow them to get the upper hand.

A pale, languid woman is not more of a lady than a rosy, robust one.

Women leading lives of imperfect health, with pains and aches running riot through their "run down" bodies, are often ignorant of the fact that it is not a specific for nervousness or rheumatism or stomach trouble that they need, but fundamental building up of every tissue of their bodies and a thorough cleansing of their blood. The strengthening of the constitution and the eradication of latent disease that Paine's celery compound achieves leaves no fear of that treacherous partial recovery that keeps one always afraid of relapse and sudden break down.

Paine's celery compound rests on the wise modern conclusion of the best medical thought that the remedy that invigorates the entire system and purifies it, is the only safe cure for such local diseases as rheumatism, neuralgia, sleeplessness, eczema, headaches and blood diseases.

It is a common harmful idea that health keeps pace with strength. People seem to think that one can determine the health of persons by measuring their arms. Health means absence of pain and the presence of more or less nerve intensity and enjoyment in the mere fact of living.

All this implies abundantly nourished organs and blood unhampered by diseased humors.

Paine's celery compound is especially valuable for recruiting the strength and spent energies of men and women advanced in years. It is the one preparation considered worthy the name of a true nerve food and blood remedy by physicians throughout the country. It is prescribed by them in every state in the Union to tone up the system, regulate the nerves and restore health and strength.

A CRUEL OPERATION.

There are many articles of daily and hourly use constantly passing before our eyes and through our hands about the production of which we know comparatively little or nothing. An interesting example of this is tortoise shell, from which combs and hairpins are made, besides a multitude of trinkets for the dressing table, the desk and the pocket. Fierce crusades have been instituted in recent years against the slaughter of birds for the procurement of their plumage for hat trimmings, and yet I venture to say that the process of procuring tortoise shell is a cruelty to animal life which far exceeds that to which birds are subjected.

In the eighties I happened to be down in Bluefields, on that awful Mosquito coast, and at the invitation of one Manuel Latona, who was the owner and captain of a small schooner, went with him to the cay El Roncador for tortoise shell. This cay gets its name (which in English would be the Sucker) from the exceedingly angry surf, which can be heard for a long distance breaking over the reefs. This is the cay on which a couple of years back the historic old ship Kearsarge was wrecked and battered to pieces. El Roncador is nothing more or less than a typical coral island, such as is found throughout the southern seas, three-quarters of a mile long, perhaps, and not more than a quarter of a mile across its widest part. Surrounding the island is a reef, inside of which the water is smooth and rather shallow, and at the bottom of this shallow water there grows a peculiar kind of sea grass which is a dainty food for the turtle tribes. There is also found on the top of the water inside the reef a sort of small blubber fish, called in Spanish dedales, or thimble fish, which is perhaps the greatest delicacy of the entire turtle men.

The turtle whose shell is valued in commerce is a small species known as the hawk bill. There are other varieties which come to El Roncador to spawn, but they are not molested. During the night the turtles crawl up on the shore to lay their eggs, each female depositing on an average about 70. To do this they dig holes in the sand about two feet deep and after laying the eggs cover them over so deftly that it is almost impossible for a novice to find them. These eggs are really delicious when roasted, but the turtle fishers are careful not to destroy those they do not take for food, so as to promote as much as possible the increase of this valuable sea reptile. At night the fishers conceal themselves along the shore as well as possible, and when the turtles come up out of the water on the beach they rush forth and turn them over on their backs with iron hooks, leaving them secure in this position until morning.

The tortoise shell of commerce is not, as is generally believed, the horny covering or shell proper of the turtle; it is the scales which cover the shield. These scales are 18 in number, 8 of them being flat and the other 5 somewhat curved. Four of those that are flat are quite large, sometimes being as much as 12 inches long and 7 inches broad, nearly transparent and beautifully variegated in color with red, yellow, white and dark brown clouds, which give the effects so fully brought out when the shell is properly polished. A turtle of average size will furnish about eight pounds of these laminae, or scales, each piece being from an eighth to a quarter of an inch in thickness.

It is the method by which these scales are loosened which is the repulsive part of the business. The turtles are not killed, as that would lead to their extermination in a very few years. After capturing them the fishers wait for daylight to complete the work. The turtles are turned over again in their natural position and fastened firmly to the ground by means of pegs. Then a bunch of dried leaves or sea grass is spread evenly over the back of the turtle and set afire. The heat is not great enough to injure the shell, merely causing it to separate the joints. A large blade, very similar in shape to a chemist's spatula, is then inserted horizontally between the laminae, which are gently prised from the back. Great care must be taken not to injure the shell by too much heat, and yet it is not forced off until it is fully prepared for separation by a sufficient amount of warmth.

The operation, as one may readily imagine, is the extreme of cruelty, and many turtles do not survive it. Most of them do live, however, and thrive, and in time grow a new covering, just as a man will grow a new finger nail in place of one he might lose. The peculiarity of the second growth of shell, though, is that instead of reproducing the original number of 18 segments it is restored in one solid piece.

To see the operation of taking the shell from the living turtle once is about all a man of northern breeding wants of it, and if the helpless reptiles had the power of voicing their sufferings under it their cries would tell of as heartless a business as man has yet engaged in.—New York Post.

When You Have a Bad Cold You want the best medicine that can be obtained, and that is Chamberlain's Cough Remedy.

You want a remedy that will not only give quick relief but effect a permanent cure.

You want a remedy that will relieve the lungs and keep expectation easy. You want a remedy that will counteract any tendency toward pneumonia. You want a remedy that is pleasant and safe to take.

Chamberlain's Cough Remedy is the only medicine in use that meets all of these requirements. This remedy is famous for its cures of bad colds throughout the United States and in many foreign countries. It has many rivals, but for the speedy and permanent cure of bad colds, stands without a peer and its splendid qualities are everywhere admired and praised. For sale by C. W. Milhous.

NOT YET CONFIRMED

Senator Allen Has McKenna's Nomination Laid Over.

A. P. A. DENOUNCED BY WHITE.

Nebraska Senator Called Attention to Charges Made by the Bar of the Pacific Coast—Standing of Indiana National Banks—Confirmations by the Senate. Will Issue a Manifesto.

WASHINGTON, Jan. 15.—Almost the entire executive session of the senate yesterday was devoted to the indirect consideration of the nomination of Hon. Joseph McKenna, now attorney general, to be associate justice of the supreme court. The discussion was the result of an effort on the part of Senator Allen (Neb., Pop.) to secure a postponement for two weeks. In the end a compromise was reached deferring consideration until next Friday.

The debate was precipitated by Senator Hoar, who called up the nomination of Mr. McKenna and asked for immediate action. Mr. Hoar said the judiciary committee had investigated most of the charges made and had reached the conclusion that they were without foundation. The most of them had been made by the American Protective Association and were founded solely upon the fact that Mr. McKenna was a Catholic.

Mr. Hoar dwelt at length upon this point, exhorting any man who would attempt to inject a question of religion into a controversy over a man's fitness for office. Such an effort was entirely un-American, unpatriotic and should not for a moment receive the consideration of fair minded men.

Senator White, of Cal., also spoke of the effort of the American Protective Association to interfere and depreciated an appeal to bigotry, prejudice and false claims of patriotism. He spoke of the members of the American Protective Association as "fools, who could not be properly characterized in the senate." As for himself he believed Mr. McKenna to be an honorable man, a competent lawyer and a just jurist, and he would support his confirmation.

Mr. Allen interposed an objection to immediate action. He called attention to the importance of the office to which Mr. McKenna had been named, saying that the senate and the American public had a right to demand that the charges should be sifted to the bottom. He said that so far as the opposition of the American Protective Association was concerned it did not influence him in the least. There were still other charges which were to his mind far more serious. He read from letters and newspapers attacking Mr. McKenna's record as an attorney and jurist on the ground of want of legal attainments. He called special attention to an attack made by the bar of the Pacific coast, which he said was deserving of more scrutiny than had been given it.

He stated that he understood the charge had been made that large corporations had been instrumental in securing Mr. McKenna's nomination. He thought this matter also should be looked into more thoroughly than the senate had had opportunity to do.

He added that he might himself vote for Mr. McKenna's confirmation, but said that before doing so he desired to be convinced that the assertions made derogatory to Mr. McKenna's character as a jurist were without foundation.

CONFIRMATIONS.

Nominations Acted Upon Favorably by the Senate.

WASHINGTON, Jan. 15.—The senate has confirmed the following nominations:

To be collectors of internal revenue: Indiana—A. E. Nowlin, Sixth district; D. W. Henry, Seventh district.

Kentucky—E. T. Franks, Second district; D. N. Comingo, Sixth district; S. J. Roberts, Seventh district.

Indiana postmasters—S. B. Brillhart, Kendallville; L. P. Capin, Greencastle; E. D. Moffett, Hartford City; A. L. Soar, Washington.

Illinois—L. C. Brown, Wheaton; H. Keeler, Belvidere; T. W. Brice, Astoria.

R. J. Tracewell of Indiana, to be controller of the treasury, N. L. Chew of Indiana, to be assistant register of the treasury; A. L. Lawrie of Indiana to be deputy auditor of the postoffice department.

Indiana National Banks.

WASHINGTON, Jan. 15.—The statement of the condition of the national banks of Indiana at the close of business Dec. 15, 1897, has been received by Controller Dawes. The average reserve held is 40.29 per cent. In the list of resources are: Loans and discounts, \$32,374,279; due from national banks, \$3,049,790; due from reserve agents, \$7,923,795. The gold coin held by Indiana banks in lawful reserve amounts to \$3,507,429, and gold certificates, \$146,889. Among the liabilities are: Capital stock paid in, \$18,792,000; surplus funds, \$4,568,177; national bank notes outstanding, \$4,549,713; individual deposits, \$36,144,363.

Will Issue a Manifesto.

WASHINGTON, Jan. 15.—As a result of a conference between the silver leaders it is understood Chairman Jones of the Democratic national, Butler of the Populist national and Towne of the Silver National Republican committees will issue a joint manifesto next week with a view to securing common action by the three organizations in the political contest of 1898.

Entertained the President.

WASHINGTON, Jan. 15.—The vice president and Mrs. Hobart entertained the president and Mrs. McKinley last evening at a beautifully appointed dinner of 20 covers.

MRS. DORA CLAY.

Her Life Attempted by Clell Richardson, Her Brother.

VALLEYVIEW, Ky., Jan. 15.—General Cassius M. Clay's young wife Dora barely escaped death yesterday at the hands of her brother, Clell Richardson, at whose house she had been boarding ever since she left the general two months ago.

Richardson fired two shots at her with a large pistol at a distance of 20 paces and then fired a shot at Mrs. John Bryant, his mother-in-law who was with Mrs. Clay.

The shooting was the result of a quarrel between Clell Richardson and his brother-in-law, Will Bryant, the former claiming that Bryant was paying too much attention to General Clay's young wife. When Mrs. Clay expostulated Clell grew angry and opened fire on the women.

Richardson is a desperate character and, so far, no attempt has been made to arrest him. Clell's brothers are guarding the women folks and swear they will kill Clell if he attempts to molest them.

MANAGER GONE.

Kentucky Trust Company Said to Have Been Left in Bad Shape.

LOUISVILLE, Jan. 15.—William Reincke, vice president and manager of the Kentucky Trust company, has left the city, leaving behind him a deed of assignment, but no property of consequence. His personal liabilities are not known, but are believed to be large. The Trust company appears to have been looted. It is said that not only is its whole capital stock of \$50,000 dissipated, but that the stockholders will be called upon to make good a large number of bonds which the Trust company had issued and guaranteed but which have no assets back of them. The deposits have dwindled down to about \$5,000, and there was no money or collateral in the vault. Whether Reincke is subject to criminal prosecution the directors of the Trust company will not say.

COLUMBUS CONVENTION.

Miners' Committee Recommends an Advance of Ten Cents a Ton.

COLUMBUS, O., Jan. 15.—The United Mine Workers' convention had a lively executive session yesterday considering the report of the scale committee. The committee recommended that an advance of 10 cents per ton be demanded in the price of mining and that the differential of 9 cents per ton between the Ohio and Pittsburgh districts be maintained. There was a lively debate over the question of the differential, the Pittsburgh delegates opposing it. The convention adjourned without taking action.

Coal Operators and Miners.

CHICAGO, Jan. 15.—Nearly 600 coal miners and operators, representing Illinois, Indiana, Ohio and Pennsylvania, will meet in joint convention on Monday for the purpose of bringing about, if possible, the adoption of a wage scale and working agreement in order to prevent a general strike next summer.

SEVEN INJURED.

Walls of Two New Buildings Fall in Baltimore.

BALTIMORE, Jan. 15.—The walls of two new houses being erected on Twenty-second street near the York road fell in late yesterday afternoon and seven men were injured, two probably fatally. Following is a list of the injured:

Lorenzo Carter, R. J. Warner, Thomas Burns, William Adams, William N. Montague, William A. Forsythe, William A. Widener.

House and Senate.

WASHINGTON, Jan. 15.—Senator Hoar yesterday introduced in the senate a resolution changing the date on which the term of the office of president is to begin from the 4th of March to the 30th of April, the present incumbent to continue in office until April 30, 1901. Terms of senators and members of congress to expire at noon on the same date. Senator Quay introduced a resolution to investigate the burning of two Seminole Indians by a mob in Oklahoma Territory, after which the senate went into executive session on nominations. The house passed the agriculture appropriation bill.

AMERICANS ARRESTED.

Suspected of Complicity in Robberies of Great Magnitude.

MEXICO CITY, Jan. 15.—Four Americans have been arrested here and are rigorously interrogated, being suspected of complicity in robberies of great magnitude. The gang numbers 12 men.

COMPOSITOR'S CRIME.

Shoots His Sweetheart and Kills Himself Because of Jealousy.

CINCINNATI, Jan. 15.—Louis Alfred, a compositor at the Enquirer office, shot his sweetheart, Minnie Puchner, inflicting a fatal wound, and then shot and killed himself. Jealousy is supposed to have been the cause. They had had a brief quarrel just before the shooting.

Madrid Cabinet Says Havana Riots Will Not Affect Reforms.

STRICT MILITARY DISCIPLINE.

Will Be Enforced in Madrid and Abroad. What the United States Should Realize. United States Squadron Leaves Hampton Roads—News From Consul General Lee.

MADRID, Jan. 15.—It was pointed out at the cabinet council yesterday that the members of the Cuban government had strongly protested against the attacks made by the Havana papers on the Spanish army. The cabinet resolved that the disorders in Havana should not affect the recent reforms. Strict military discipline will be enforced both here and abroad; and if necessary, measures will be submitted to the cortes for reforming the army laws.

"There are rumors that the Carlists had planned an armed rising near Alicante (in Valencia) but abandoned it on the protests of the agent of Don Carlos, the Marquis Cerralbo."

The police precautions have been redoubled in the vicinity of the United States legation and around the residence of the United States minister, General Stewart L. Woodford.

A dispatch from General Blanco was read saying that quiet had been restored at Havana and the troops withdrawn.

It is the belief in official circles that the events at Havana have provoked an agitation among officers of the Madrid garrison.

CUBAN CRISIS.

What the United States Should Begin to Realize.

ST. LOUIS, Jan. 15.—A Washington special to The Globe-Democrat says: "Without encouraging any war scare the people of the United States might as well realize two things: There is no way out except through intervention or recognition of Cuban independence, and either course is likely to lead to war."

This advice comes from Havana on the best of authority.

Squadron Leaves Hampton Roads.

HAMPTON ROADS, Jan. 15.—The strongest squadron ever assembled under the American flag steamed out from Hampton Roads and headed southward this morning. The destination is the Bahama channel between the Bahama Islands and Cuba. Admiral Seward's instructions are to make Key West, five hours run from Havana, his headquarters for the rest of the winter. Powerful as this squadron is, it does not include six warships which are already in the gulf waters near Cuba.

All Quiet at Havana.

WASHINGTON, Jan. 15.—The last news from Consul General Lee came to the state department late yesterday and was at once sent over to the white house. It went to confirm the previous reports and was a simple statement by General Lee that yesterday all was quiet in Havana.

DISPUTED TERRITORY.

Commissioner Smith Runs Up the American Flag in Alaska.

VICTORIA, Jan. 15.—Collector of Customs Milnes is in receipt of a letter from Skagway in which it is alleged that Mr. Smith, United States commissioner for Dyea and Skagway, claims a strip of land three miles down from the head of Lake Bennett, which is near the boundary as defined by the United States and which would give the United States control of the territory from the coast to the lake.

The commissioner, the writer alleges, has ordered all locators of lots to have them recorded with him. A party of Americans, the writer says, followed the commissioner's direction by hoisting the American flag just below the police barracks where the British flag was flying. The Canadian mounted police demanded an explanation and after some parleying the flag was hauled down and an apology tendered.

The same letter contains information that Bernard Moore is having more trouble with squatters on land which he claims as Skagway. Early in the present month, it is alleged, he turned out with an armed force and drove squatters off the land. It is also stated that some firing was done, but nobody was hurt.

STATE'S TESTIMONY IN.

Luetger Will Now Have a Chance to Prove His Innocence.

CHICAGO, Jan. 15.—Direct testimony on the part of the state against Adolph Luetger, the alleged wife-murderer, was finished yesterday. Dr. Dorsey's cross examination by attorney Harmon resulted disastrously to the defense, the sausage-maker's lawyer bringing out emphatic reiterations of matter material to state's case.

COMPOSITOR'S CRIME.

Shoots His Sweetheart and Kills Himself Because of Jealousy.

CINCINNATI, Jan. 15.—Louis Alfred, a compositor at the Enquirer office, shot his sweetheart, Minnie Puchner, inflicting a fatal wound, and then shot and killed himself. Jealousy is supposed to have been the cause. They had had a brief quarrel just before the shooting.

Young Woman Takes Her Father's Place as a Mail Carrier.

ENGLISH, Ind., Jan. 15.—Miss Cassie Natrick, daughter of mail contractor Thomas Natrick, on the Oriole and Eckerty mail route, line 17 miles long, is delivering the mail on horseback. Natrick was thrown from his horse receiving a compound fracture of his right shoulder, which, owing to his advanced age, will incapacitate him for months. Miss Natrick declares that she will carry the mail till he recovers, or till the close of the contract. The task is one that few men care to perform during the winter months. She is 17 years old.

NOTES OF THREE STATES.

Albany, Ind., will have an electric light plant. Machine coal miners at Central City, Ky., are on strike.

A train of coal cars was wrecked near Brinkhaven, O. Two men seriously injured.

Albert Evans, 16 years old of Lima, O., is dead from injuries received while skating.

Jesse S. Hill, cashier of the Deposit bank at Central City, Ky., died suddenly of apoplexy.

John W. Harris, stock trader at Richmond, Ky., has assigned. Assets, \$30,000; liabilities \$12,000.

Farmers in the north part of Wayne county, Ind., are losing whole herds of hogs from cholera.

Will T. Jarvis, a pressman at Stuebenville, O., shot himself through the heart. Ill health caused despondency.

The grand jury of Montgomery county, Ind., has indicted Will Thompson for assault with intent to murder his wife.

The annual meeting of the German singing societies of Indiana, Ohio and Illinois will be held at Muncie, Ind., this year.

Mrs. Frank Jameson of near Washington, O., accidentally shot and concentrated life in her eye. The sight was destroyed.

Mrs. Thomas Brackney has received judgment against Dr. Fred Nussel of Brazil, Ind., for \$1,000 for improper treatment of a broken leg.

Tuberculosis Reported to be on the Increase Among Ohio Animals.

COLUMBUS, O., Jan. 15.—The Ohio State Veterinary Medical society, which convened in this city, had submitted to it a report on contagious diseases among domestic animals in Ohio. The committee reports an extraordinary prevalence of tuberculosis among cattle, horses, sheep, hogs and other animals in this state.

The disease is not confined to animals in any particular part of the state. Its germs have been detected all over the state. The disease seems to be pretty general.

STOLEN CHECKS.

New York Banks Notified to Look Out For Them—Some Have Been Raised.

NEW YORK, Jan. 15.—The banks of this city have been notified that a large number of checks had been stolen from letterboxes in Detroit, Buffalo, Minneapolis, St. Paul, Toledo, Cleveland, Kansas City and Milwaukee by an organized gang of thieves. Some of the checks have been raised and altered by means of acids. In several instances the thieves have been successful in getting the checks cashed.

Jockey Club Stakes Closed.

LOUISVILLE, Jan. 15.—Entries to the spring stakes of the new Louisville Jockey club closed today. Eleven stakes will be run during the 15 days, beginning May 4. Three of these events—the Kentucky derby, \$50,000, Clark stakes, \$4,000, and the Kentucky Oaks, \$3,000,—were closed some time ago.

What Kurtz Says of the Threat.

COLUMBUS, O., Jan. 15.—C. L. Kurtz, leader of "the combine" in the fight against Senator Hanna, is quoted in an interview as saying in reply to the threat to remove him from the Republican national committee: "I was elected by the Ohio delegation and no one else has the power to remove me."

FINALLY HEART TROUBLE.
Restored to Health by Dr. Miles' Nerve.

MR. EDWARD HARDY, the jolly manager of Sheppard Co.'s great store at Briceville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and entered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nerve. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

DISTRICT CONVENTION.

Call to Meet at Greensburg, Tuesday, February 1, 1898.

The republicans of the Fourth Congressional District of Indiana, are invited to meet in delegate convention, at the city of Greensburg, on Tuesday, February 1, 1898, at 11:30 o'clock a. m., for the purpose of selecting a Republican District Committee.

The representation in said convention will be one delegate and one alternate delegate for every two and fraction thereof of 100 or more votes cast for Henry G. Thayer, elector at large for the state of Indiana, at the election held Nov. 3, 1896.

The apportionment of delegates to the several counties of said district is as follows:

Bartholomew.....	16
Brown.....	4
Dearborn.....	14
Decatur.....	14
Jackson.....	13
Jefferson.....	18
Jennings.....	10
Ohio.....	4
Ripley.....	13
Switzerland.....	8

Total.....114

The county committee of each county will apportion the delegates to the various precincts, wards or townships, and give notice of the place and hour of such meetings, the date of which is January 22, 1898.

The business of the meeting is to select one delegate and one alternate to the district meeting, and one member of the County Central committee.

Notice of such meetings shall be given by publication in the republican press of the county at least ten days before such meeting; and if there be no paper, then by posting five notices in each precinct.

The county committees will meet on January 29, 1898, at 2:00 o'clock p. m. to organize by electing chairmen and vice-chairmen, and provide for the selection of a secretary and a treasurer.

On behalf of the committee, the republicans of Decatur county, and the citizens of Greensburg, I extend to all a hearty invitation to be present at the district meeting.

The call and business being made by order of the State Central Committee.

JAMES E. CASKEY,
District Committeeman Fourth District.

REPUBLICAN TOWNSHIP CONVENTION.

The republicans of the several townships of Jackson county will meet in mass convention at such places as the township committee may select, on Saturday Jan. 23, 1898, at 2 o'clock p. m. for the transaction of the following business:

First—Elect one member for the county central committee from each voting precinct in the county who will meet at Brownstown on Saturday January 29th, 1898, for the purpose of electing a county chairman and vice chairman.

Second—Elect delegates and alternate delegates to the Fourth Congressional District convention to be held at Greensburg, Ind., on Tuesday Feb. 1st, 1898, for the purpose of electing a member of the state committee for said district.

The townships are entitled to the following number of delegates and alternate delegates:

TAXATION OF INSURANCE POLICIES.

The supreme court has decided against the board of tax commissioners on the question of taxing a certain class of insurance policies, which establishes the fact that the law as it now exists does not authorize such taxation. The issue will now arise as to whether or not such property should be taxed. It is beyond dispute that many wealthy men of the state have invested largely in insurance in order to evade taxation and thus perhaps millions of dollars are kept off the tax duplicate. To prevent the enactment of a law making such property taxable, interested parties are talking about the poor man's insurance. But that is very cheap talk and could deceive only the ignorant.

The poor man, or the man of ordinary means, carries fraternal or the ordinary life policy, which would not be reached by such a law. It is the rich man's investment that would be placed upon the tax duplicate, and there are many intelligent citizens who think that such a law would be just.

The outspoken expressions from all parts of the country in reference to the republican victory in Ohio show that the republicans generally are loyal to party organizations as well as to party principles.

The Pleasant Grove correspondent to the Brownstown Banner makes some forcible objections to the proposed gravel road from Ratcliff Grove to Braden bridge. The matter is to be settled by election February 10.

The figures for 1897 showed that the United States furnished more than one-half of the wheat required by European importing countries. Our exports of American wheat and flour aggregated 182,000,000 bushels out of the world's shipments of 320,000,000 bushels.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The Demand for Corn.

One of the most satisfactory commercial features of 1897 has been the increased demand abroad for corn. During the month of December nearly twice as much corn went to Europe as in the corresponding month of 1896.

The people of Europe are slowly learning that corn is good for man as well as beast. The total exports of corn last year amounted to 186,000,000 bushels, or nearly 70,000,000 bushels more than in any previous year. In the six preceding 1897 the average annual exportation of corn was only 66,000,000 bushels. It is clear, therefore, that the various efforts which have been made to bring this king of American cereals into favor with foreigners are beginning to bear fruit. There is no country in the world that can in any wise compete with the United States in growing corn, and if we can establish a large and increasing market abroad for the product, it will bring our farmers untold wealth. What is most needed to insure a general demand for corn abroad is a knowledge of preparing it for the table. Of the large amount of cornmeal sent to Ireland during the famine many years ago, much was wasted, as the poor people could add nothing to it but water and did not even know how to prepare hoe-cakes.

FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

McELREE'S Wine of Cardui

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefited by it.

For advice in cases requiring special directions, address, giving symptoms, the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Tupelo, Miss., says:

"My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her. It also helped my mother through the Change of Life."

BRADSTREET'S REVIEW.

Distributive Trade Quiet Owing to Mild Weather.

NEW YORK, Jan. 15.—Bradstreet's of today says: Distributive trade remains rather quiet, mild weather throughout the country tending to check distribution of winter goods. Prices generally remain steady or tend upward, except for some grades of iron, and orders for spring trade which are received are encouraging.

Industrial activity is most manifest at the west, where the demand for iron is very large. A feature of the week was the placing of an order by one railroad for 100,000 tons of steel rails, with smaller orders aggregating in the neighborhood of 25,000 tons more. Pig iron production is now at an unprecedented rate, the furnace capacity being estimated at 1,000,000 tons a month.

At the south manufacturing activity is a feature, sales of iron being very heavy. A good export demand for cotton and grain at steady prices is a feature.

At the east a number of strikes against wage reductions are reported or expected in the cotton industry.

Some woolen mills, working on heavy men's wear goods, are refusing orders, their capacity being fully booked.

Anthracite coal production, it is hoped, in that trade, will be restricted sufficiently to allow of the advance of 20 to 40 cents per ton being maintained.

Weather has been disappointing in the northwest, but an improvement in the demand developed at some centers as the week advanced. The rush to Alaska has already begun on the Pacific coast. Freight charters are reported lower.

Export trade continues large, a gain of 8 per cent on the total export of bread stuffs, cotton, mineral oils, cattle and hogs and provisions being shown both for both for December and the calendar year.

The recent falling off in wheat exports prove, as was indicated last week in Bradstreet's to have been due to the dry weather, quieting and not to any falling off of demand from abroad. The total export of wheat (flour included as wheat) from the United States and Canada for this week amounted to 56,135,166 bushels, against 3,481,000 bushels last week.

HOLDS THE RECORD.

W. T. Lundrum World's Youngest Thirty-Second Degree Mason.

MAYFIELD, Ky., Jan. 15.—Will T. Lundrum of this city bears the distinction of being the youngest Mason on record. He was 21 years old Oct. 30, 1894, and according to the laws of Kentucky was legally of age on the night of Oct. 29, when he took his first degree. On Nov. 26, 1894, he passed to the second degree and Dec. 24, four weeks later, he received the third and last degree in the York Rite. By special dispensation he received the four degrees in Capital Masonry the same night he was raised to the third degree in the Blue lodge. The following afternoon he received the Red Cross degree and at night was made a Sir Knight, all within five days less than two calendar months. On Jan. 17, 1895, at Louisville, in a class with his father and grandfather, he received from the fourth to the 32d degrees in the Scottish Rite. His last step was taken on Feb. 22, 1895, when he was made a Noble of the Mystic Shrine at Louisville.

MURDERER HANGED.

Killed a Man, Woman and Boy—Made a Confession.

RICHMOND, Va., Jan. 15.—Archey Lockely (colored) a triple murderer was hanged here yesterday. There was a large crowd present and the sheriff and his deputies had to produce pistols to prevent some of those present from forcing their way into the inclosure around the scaffold. Death was instantaneous. Lockely made a full confession.

Lockely had been living for several years with Ella Chapman, and on Oct. 12 last, went to her house and a quarrel ensued which ended in a fight. When the woman's nephew, George Leo, started for an officer, Lockely seized a gun and shot him; then shot at Charles Chapman, but missed him. He then shot Eddie Chapman, and when he saw the woman trying to make her escape, shot her.

DEAN & CO.

Trial Begun on Charges of Conspiring to Defraud.

NEW YORK, Jan. 15.—The opening examination in the case of E. H. Dean & Co., charged with conspiracy to defraud, was begun yesterday afternoon, Magistrate Flannery presiding. Several witnesses testified to having given the firm money for investment.

The hearing was adjourned until Thursday. The witnesses admitted that they had given money to Dean & Co. for the purpose of speculation and to have complete control of it. In the opinion of the attorneys this admission is very favorable to the defense.

Sandyfork Shooting.

BARBOURVILLE, Ky., Jan. 15.—News has reached here of a bloody fight at a "blind tiger" Wednesday on Sandyfork, Leslie county, in which Robert Caldwell, Smith Heltton, John Williams and Tom Wilson, all colored, were killed, and Will Burgess mortally wounded. Whiskey was the cause of the fight, all of the principals being drunk.

A STRONG BLACKSMITH.

How Mr. William Creed, of Shelbyville, has Obtained His Strength.

From the Democrat, Shelbyville, Ind.

One of the prominent blacksmiths of Shelbyville, Indiana, is Mr. William Creed. He has been in the business for a number of years at his present stand, and is a first-class workman. Like the village blacksmith, from early morn till night the anvil rings from the strokes of his heavy hammer. But, unlike most of the blacksmiths we read about, Mr. Creed was not always so stout and healthy, although his brawny right arm always did its duty well when the body gave it power. Although Mr. Creed is in good health now, and can swing the hammer as hard as ever, for more than a year past he was in very poor health. Mr. Creed's trouble was inflammatory rheumatism in its worst form.

A reporter, while in Shelbyville a few days ago, chanced to meet Mr. Creed, and in the conversation an allusion was made to that gentleman's illness. "Yes, I was a victim of inflammatory rheumatism," said he, "and I had a bad case of it. But I managed to pull through in rather a marvelous manner."

The reporter induced Mr. Creed to relate the whole circumstance regarding this experience.

"It was about a year ago last February," said Mr. Creed, "that I began to notice I had the rheumatism. I was exposed to the severe cold and damp weather considerably, and this, I suppose started the disease. The first symptoms of it was noticed one night, when my limbs began to pain me and I was restless. My joints ached, and in a few days my feet and ankles had swollen. The swelling would go down, and then form again. This, of course, always gave me great pain, and I soon found that I had a genuine case of rheumatism. I had observed that cases of rheumatism are seldom cured, so I thought it was not worth while to doctor for it. But

in a short time my trouble had developed into inflammatory rheumatism, and I was confined to my bed. I had a very severe case. I doctored along, and was making no headway, getting worse, if anything, when I happened to see an article in a paper regarding a case almost like mine, in which the victim had been cured by Dr. Williams' Pink Pills for Pale People. I sent for some of the medicine and commenced taking it. In two or three days I began to notice improvement, and I became encouraged and kept up the treatment. In a few weeks I felt almost well, and by the time I had taken three boxes I was entirely cured. This was in May, 1896. Dr. Williams' Pink Pills completely cured me, and I have not been troubled any since. The medicine is certainly a wonder, and gave complete satisfaction in my case. It is very highly spoken of by many of my neighbors who have used it, and the druggist where I bought it says it has the largest sale of any medicine in his store."

(Signed) "WILLIAM CREED."

Witnesses: HARLEY FAYORS.

Dr. Williams' Pink Pills for Pale People contain in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. They build up the blood, and restore the glow of health to pale and sallow cheeks. In men they effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature. Pink Pills are sold in boxes (never in loose bulk) at 50 cents a box or six boxes for \$2.50, and may be had of all druggists, or direct by mail from Dr. Williams' Medicine Company, Schenectady, N. Y.

A Fake.

The report that John Sparks was kicked by a horse yesterday and killed turns out to be a fake as Sparks is in town today "without a scratch" as he put it. All the the REPUBLICAN has to say about it is that the report was published in good faith and it was a good "item" where true or not.

It is a plain fact that twenty per cent deaths in our larger cities are caused by consumption; and when we reflect that this terrible disease can be forestalled by Dr. Bull's Cough Syrup, shall we condemn the sufferers for their negligence, or pity them for their ignorance.

Death of Miss Frances E. Smith.

This morning Jay C. Smith received a message announcing the death of his sister, Miss Frances E. Smith, last night at Nashville, Tennessee. Two days ago a telegram came stating that she was seriously ill. Her father, Rev. T. C. Smith, of Alexandria, received like information and left at once for her bedside. He found her near death's door, but hope was not all gone. There seemed to be a slight change for the better, but this was only temporary. She died some time during last night. Her father left Nashville this morning with the body and arrived here this afternoon at 3:35 o'clock. He was met at Louisville by Jay C. Smith. The remains will be taken to his home on North Chestnut street immediately after the arrival of the train. Monday the remains will be taken to Franklin for burial.

Miss Frances E. Smith was born at Middleport, O., Nov. 15, 1872. When she was a small girl the family moved to Aurora, Ind., where they resided ten years. Miss Frances entered Franklin college, where she took the full classical course, graduating in 1894. The next two years she spent as a teacher in Selma University, at Selma, Alabama. On account of ill health the next year she remained at home, rendering valuable assistance to her father in his pastoral duties at Alexandria. Last fall she accepted a position in Roger Williams University, at Nashville, where she did, as she always had, most acceptable work. She spent her last holiday vacation here with her brother, having left for her post of duty only two weeks ago. Her sudden death is a sad blow to the family and her large circle of friends.

In fact we are glad it fell into hands so that it will help the business interests of the town as it has done in the past. —Crothersville Commercial.

Use of Crude Oil By B. & O. S. W.

For some time the Baltimore and Ohio Southwestern Railway Company has been experimenting with crude oil for kindling fires in locomotives, in place of using cord wood, and the results obtained have been so satisfactory that it will hereafter be used on the whole line.

During the month of November, 1897, at the company's shops, which are located at Washington, Ind., and Chillicothe, O., 1225 fires were started with crude oil, at a cost of \$17.32, or 141 cents per fire. To have started the same number of fires with wood the cost would have been \$306.00, or \$24.96 cents per fire. This represents a saving of \$288.68, and is very satisfactory.

What Advertising Is

Advertising may be done in a thousand ways. Any method which tells anybody about anything is advertising. Advertising is anything which conveys a message about a business or a product.

If a man opens a store and tells his friends about it, he is advertising the store.

If he prints his announcement on cards and hands them to the passerby, he is advertising the store.

If he puts his sign above the door, or goods in the window, he is advertising the store.

If he makes a hundred duplicates of his sign and nails them on fences or dead walls where people can see them, he is advertising.

If he joins a church or a club, or a secret society, his name and his business will become known, and he will still be advertising.

If he causes his sign or his card to be reproduced and printed in a newspaper he is doing the same thing that he did when he tacked the sign on the fences or handed the card to the passerby. He is putting his sign into the house of every reader of that paper.

This hypothetical man is a retail dealer. He is in direct contact with the people to whom he seeks to convey the news of his enterprise. The principle is exactly the same with the maker or handler of goods that are to have a more local sale.

Of all the ways of advertising, the best, most certain and cheapest is that of using the columns of a good newspaper. Intelligent people with money to spend always read the papers—Press and Printer.

CASTORIA

CAN'T GET REST.

Sleeplessness Common Among the Aged.

Thin, Pale, Inactive Blood the Underlying Cause.

Restful Sleep from Better Blood Supply.

Paine's Celery Compound Fills the Arteries.

Multiplies Number of Vital Red Corpuscles.

There are degrees of sleeplessness from the wide awake state to the sleep which does not refresh and has in it only the mockery of rest.

Such sleep is not tired nature's sweet restorer. Dreams have power to torture and to depress. Sleep, therefore, is not always rest, but trouble, and a troubled sleep brings to the brainworker loss of power for thought and labor.

It is a well known fact that for any part to perform actively its duties, it must have an abundance of blood; but when the power of locally regulating the supply of blood in the brain is impaired because of insufficient nerve power the tired brain grinds the same old grist over and over till nervous prostration, paralysis or hysteria ensues.

The cause of sleeplessness is so clear that the cure is equally apparent. The nerves must recover their grip. The health wrecking laxity of the blood vessels must be corrected. The answer to how this is to be done is:

Feed the exhausted nerve tissue with Paine's celery compound.

By thus acting on the nerves Paine's celery compound is able to regulate the blood supply and permanently banish sleeplessness that shortens so many lives, especially among those beyond middle age. In addition to this indirect control over the circulation, Paine's celery compound directly increases the amount of blood in the arteries and arouses the purifying organs to drive out impurities that often lurk in it undeveloped for years till age or a "run down" condition allow them to get the upper hand.

A pale, languid woman is not more of a lady than a rosy, robust one.

Women leading lives of imperfect health, with pains and aches running riot through their "run down" bodies, are often ignorant of the fact that it is not a specific for nervousness or rheumatism or stomach trouble that they need, but fundamental building up of every tissue of their bodies and a thorough cleansing of their blood. The strengthening of the constitution and the eradication of latent disease that Paine's celery compound achieves leaves no fear of that treacherous partial recovery that keeps one always afraid of relapse and sudden break down.

Paine's celery compound rests on the wise modern conclusion of the best medical thought that the remedy that invigorates the entire system and purifies it, is the only safe cure for such localized diseases as rheumatism, neuralgia, sleeplessness, eczema, headaches and blood diseases.

It is a common harmful idea that health keeps pace with strength. People seem to think that one can determine the health of persons by measuring their arms. Health means absence of pain and the presence of more or less nerve intensity and enjoyment in the mere fact of living.

All this implies abundantly nourished organs and blood unhampered by diseased humors.

Paine's celery compound is especially valuable for recruiting the strength and spent energies of men and women advanced in years. It is the one preparation considered worthy the name of a true nerve food and blood remedy by physicians throughout the country. It is prescribed by them in every state in the Union to tone up the system, regulate the nerves and restore health and strength.

CASTORIA

A CRUEL OPERATION.

There are many articles of daily and hourly use constantly passing before our eyes and through our hands about the production of which we know comparatively little or nothing. An interesting example of this is tortoise shell, from which combs and hairpins are made, besides a multitude of trinkets for the dressing table, the desk and the pocket. Fierce crusades have been instituted in recent years against the slaughter of birds for the procurement of their plumage for hat trimmings, and yet I venture to say that the process of procuring tortoise shell is a cruelty to animal life which far exceeds that to which birds are subjected.

In the eighties I happened to be down in Bluefields, on that awful Mosquito coast, and at the invitation of one Manuel Latona, who was the owner and captain of a small schooner, went with him to the cay El Roncador for tortoise shell. This cay gets its name (which in English would be the Snorer) from the exceedingly angry surf, which can be heard for a long distance breaking over the reefs. This is the cay on which a couple of years back the historic old ship Kearsarge was wrecked and battered to pieces. El Roncador is nothing more or less than a typical coral island, such as is found throughout the southern seas, three-quarters of a mile long, perhaps, and not more than a quarter of a mile across its widest part. Surrounding the island is a reef, inside of which the water is smooth and rather shallow, and at the bottom of this shallow water there grows a peculiar kind of sea grass which is a dainty food for the turtle tribes. There is also found on the top of the water inside the reef a sort of small blubber fish, called in Spanish dedales, or thimble fish, which is perhaps the greatest delicacy of the entire turtle menu.

The turtle whose shell is valued in commerce is a small species known as the hawks bill. There are other varieties which come to El Roncador to spawn, but they are not molested. During the night the turtles crawl up on the shore to lay their eggs, each female depositing on an average about 70. To do this they dig holes in the sand about two feet deep and after laying the eggs cover them over so deftly that it is almost impossible for a novice to find them. These eggs are really delicious when roasted, but the turtle fishers are careful not to destroy those they do not take for food, so as to promote as much as possible the increase of this valuable sea reptile. At night the fishers conceal themselves along the shore as well as possible, and when the turtles come up out of the water on the beach they rush forth and turn them over on their backs with iron hooks, leaving them secure in this position until morning.

The tortoise shell of commerce is not, as is generally believed, the horny covering or shell proper of the turtle; it is the scales which cover the shield. These scales are 13 in number, 8 of them being flat and the other 5 somewhat curved. Four of those that are flat are quite large, sometimes being as much as 12 inches long and 7 inches broad, nearly transparent and beautifully variegated in color with red, yellow, white and dark brown clouds, which give the effects so fully brought out when the shell is properly polished. A turtle of average size will furnish about eight pounds of these laminae, or scales, each piece being from an eighth to a quarter of an inch in thickness.

It is the method by which these scales are loosened which is the repulsive part of the business. The turtles are not killed, as that would lead to their extermination in a very few years. After capturing them the fishers wait for daylight to complete the work. The turtles are turned over again in their natural position and fastened firmly to the ground by means of posts. Then a bunch of dried leaves or sea grass is spread evenly over the back of the turtle and set afire. The heat is not great enough to injure the shell, merely causing it to separate the joints. A large blade, very similar in shape to a chemist's spatula, is then inserted horizontally between the laminae, which are gently pried from the back. Great care must be taken not to injure the shell by too much heat, and yet it is not forced off until it is fully prepared for separation by a sufficient amount of warmth.

The operation, as one may readily imagine, is the extreme of cruelty, and many turtles do not survive it. Most of them do live, however, and thrive, and in time grow a new covering, just as a man will grow a new finger nail in place of one he might lose. The peculiarity of the second growth of shell, though, is that instead of reproducing the original number of 13 segments it is restored in one solid piece.

To see the operation of taking the shell from the living turtle once is about all a man of northern breeding wants of it, and if the helpless reptiles had the power of voicing their sufferings under it their cries would tell of as heartless a business as man has yet engaged in.—New York Post.

NOT YET CONFIRMED**Senator Allen Has McKenna's Nomination Laid Over.****A. P. A. DENOUNCED BY WHITE.**

Nebraska Senator Called Attention to Charges Made by the Bar of the Pacific Coast—Standing of Indiana National Banks—Confirmations by the Senate. Will Issue a Manifesto.

WASHINGTON, Jan. 15.—Almost the entire executive session of the senate yesterday was devoted to the indirect consideration of the nomination of Hon. Joseph McKenna, now attorney general, to be associate justice of the supreme court. The discussion was the result of an effort on the part of Senator Allen (Neb., Pop.) to secure a postponement for two weeks. In the end a compromise was reached deferring consideration until next Friday.

The debate was precipitated by Senator Hoar, who called up the nomination of Mr. McKenna and asked for immediate action. Mr. Hoar said the judiciary committee had investigated most of the charges made and had reached the conclusion that they were without foundation. The most of them had been made by the American Protective association and were founded solely upon the fact that Mr. McKenna was a Catholic.

Mr. Hoar dwelt at length upon this point, exhorting any man who would attempt to inject a question of religion into a controversy over a man's fitness for office. Such an effort was entirely un-American, unpatriotic and should not for a moment receive the consideration of fair minded men.

Senator White (Cal., also spoke of the effort of the American Protective association to interfere and depreciated an appeal to bigotry, prejudice and false claims of patriotism. He spoke of the members of the American Protective association as "fools, who could not be properly characterized in the senate." As for himself he believed Mr. McKenna to be an honorable man, a competent lawyer and a just jurist, and he would support his confirmation.

Mr. Allen interposed an objection to immediate action. He called attention to the importance of the office to which Mr. McKenna had been named, saying that the senate and the American public had a right to demand that the charges should be sifted to the bottom. He said that so far as the opposition of the American Protective association was concerned it did not influence him in the least. There were still other charges which were to his mind far more serious.

He read from letters and newspapers attacking Mr. McKenna's record as an attorney and jurist on the ground of want of legal attainments. He called especial attention to an attack made by the bar of the Pacific coast, which he said was deserving of more scrutiny than had been given it.

He stated that he understood the charge had been made that large corporations had been instrumental in securing Mr. McKenna's nomination. He thought this matter also should be looked into more thoroughly than the senate had had opportunity to do.

He added that he might himself vote for Mr. McKenna's confirmation, but said that before doing so he desired to be convinced that the assertions made derogatory to Mr. McKenna's character as a jurist were without foundation.

CONFIRMATIONS.

Nominations Acted Upon Favorably by the Senate.

WASHINGTON, Jan. 15.—The senate has confirmed the following nominations:
To be collectors of internal revenue: Indiana—A. E. Nowlin, Sixth district; D. W. Henry, Seventh district.

Kentucky—E. T. Franks, Second district; D. N. Comings, Sixth district; S. J. Roberts, Seventh district.

Indiana postmasters—S. B. Brillhart, Kendallville; L. P. Capin, Greencastle; E. D. Moffett, Hartford City; A. L. Scarit, Washington.

Illinois—L. C. Brown, Wheaton; A. H. Keeler, Belvidere; T. W. Brice, Astoria.

R. J. Tracewell of Indiana, to be controller of the treasury, N. L. Chew of Indiana, to be assistant register of the treasury; A. L. Lawhe of Indiana to be deputy auditor of the postoffice department.

Indiana National Banks.
WASHINGTON, Jan. 15.—The statement of the condition of the national banks of Indiana at the close of business Dec. 15, 1897, has been received by Controller Dawes. The average reserve held is 40.29 per cent. In the list of resources are: Loans and discounts, \$32,874,279; due from national banks, \$3,049,790; due from reserve agents, \$7,923,795. The gold coin held by Indiana banks in lawful reserve amounts to \$3,507,429, and gold certificates, \$146,839. Among the liabilities are: Capital stock paid in, \$18,792,000; surplus funds, \$4,568,177; national bank notes outstanding, \$4,549,713; individual deposits, \$36,144,263.

Will Issue a Manifesto.

WASHINGTON, Jan. 15.—As a result of a conference between the silver leaders it is understood Chairman Jones of the Democratic national, Butler of the Populist national and Towne of the Silver National Republican committees will issue a joint manifesto next week with a view to securing common action by the three organizations in the political contest of 1898.

Entertained the President.

WASHINGTON, Jan. 15.—The vice president and Mrs. Hobart entertained the president and Mrs. McKinley last evening at a beautifully appointed dinner of 20 covers.

MRS. DORA CLAY.

Her Life Attempted by Clell Richardson, Her Brother.

VALLEYVIEW, Ky., Jan. 15.—General Cassius M. Clay's young wife Dora barely escaped death yesterday at the hands of her brother, Clell Richardson, at whose house she had been boarding ever since she left the general two months ago.

Richardson fired two shots at her with a large pistol at a distance of 20 paces and then fired a shot at Mrs. John Bryant, his mother-in-law who was with Mrs. Clay.

The shooting was the result of a quarrel between Clell Richardson and his brother-in-law, Will Bryant, the former claiming that Bryant was paying too much attention to General Clay's young wife. When Mrs. Clay expostulated Clell grew angry and opened fire on the women.

Richardson is a desperate character and, so far, no attempt has been made to arrest him. Clell's brothers are guarding the women folks and swear they will kill Clell if he attempts to molest them.

MANAGER GONE.

Kentucky Trust Company Said to Have Been Left in Bad Shape.

LOUISVILLE, Jan. 15.—William Reincke, vice president and manager of the Kentucky Trust company, has left the city, leaving behind him a deed of assignment, but no property of consequence. His personal liabilities are not known, but are believed to be large. The Trust company appears to have been looted. It is said that not only is its whole capital stock of \$50,000 dissipated, but that the stockholders will be called upon to make good a large number of bonds which the Trust company had issued and guaranteed but which have no assets back of them. The deposits have dwindled down to about \$5,000, and there was no money or collateral in the vault. Whether Reincke is subject to criminal prosecution the directors of the Trust company will not say.

COLUMBUS CONVENTION.

Miners' Committee Recommends an Advance of Ten Cents a Ton.

COLUMBUS, O., Jan. 15.—The United Mine Workers' convention had a lively executive session yesterday considering the report of the scale committee. The committee recommended that an advance of 10 cents per ton be demanded in the price of mining and that the differential of 9 cents per ton between the Ohio and Pittsburgh districts be maintained. There was a lively debate over the question of the differential, the Pittsburgh delegates opposing it. The convention adjourned without taking action.

Coal Operators and Miners.

CHICAGO, Jan. 15.—Nearly 600 coal miners and operators, representing Illinois, Indiana, Ohio and Pennsylvania, will meet in joint convention on Monday for the purpose of bringing about, if possible, the adoption of a wage scale and working agreement in order to prevent a general strike next summer.

SEVEN INJURED.

Walls of Two New Buildings Fall in Baltimore.

BALTIMORE, Jan. 15.—The walls of two new houses being erected on Twenty-second street near the York road fell in late yesterday afternoon and seven men were injured, two probably fatally. Following is a list of the injured: Lorenzo Carter, R. J. Warner, Thomas Burns, William Adams, William N. Montague, William A. Forsythe, William A. Widener.

House and Senate.

WASHINGTON, Jan. 15.—Senator Hoar yesterday introduced in the senate a resolution changing the date on which the term of the office of president is to begin from the 4th of March to the 30th of April, the present incumbent to continue in office until April 30, 1901. Terms of senators and members of congress to expire at noon on the same date. Senator Quay introduced a resolution to investigate the burning of two Seminole Indians by a mob in Oklahoma Territory, after which the senate went into executive session on nominations. The house passed the agriculture appropriation bill.

AMERICANS ARRESTED.

Suspected of Complicity in Robberies of Great Magnitude.

MEXICO CITY, Jan. 15.—Four Americans have been arrested here and are rigorously incommunicado, being suspected of complicity in robberies of great magnitude. The gang numbers 12 men.

Shoots His Sweetheart and Kills Himself Because of Jealousy.

CINCINNATI, Jan. 15.—Louis Alfeld, a compositor at the Enquirer office, shot his sweetheart, Minnie Pachner, inflicting a fatal wound, and then shot and killed himself. Jealousy is supposed to have been the cause. They had had a brief quarrel just before the shooting.

Frances E. Willard.

NEW YORK, Jan. 15.—Miss Frances E. Willard, the chief executive of the Woman's Christian Temperance union, arrived in this city yesterday. She expects to remain here several weeks looking after temperance work.

AS REGARDS CUBA**Madrid Cabinet Says Havana Riots Will Not Affect Reforms.****STRICT MILITARY DISCIPLINE.**

Will Be Enforced in Madrid and Abroad. What the United States Should Realize. United States Squadron Leaves Hampton Roads—News From Consul General Lee.

MADRID, Jan. 15.—It was pointed out at the cabinet council yesterday that the members of the Cuban government had strongly protested against the attacks made by the Havana papers on the Spanish army. The cabinet resolved that the disorders in Havana should not affect the recent reforms. Strict military discipline will be enforced both here and abroad; and if necessary, measures will be submitted to the cortes for reforming the army laws.

"There are rumors that the Carlists had planned an armed rising near Alicante (in Valencia) but abandoned it on the protests of the agent of Don Carlos, the Marquis Cerralbo."

The police precautions have been doubled in the vicinity of the United States legation and around the residence of the United States minister, General Stewart L. Woodford.

A dispatch from General Elanco was read saying that quiet had been restored at Havana and the troops withdrawn.

It is the belief in official circles that the events at Havana have provoked an agitation among officers of the Madrid garrison.

CUBAN CRISIS.

What the United States Should Begin to Realize.

ST. LOUIS, Jan. 15.—A Washington special to The Globe-Democrat says: "Without encouraging any war scare the people of the United States might as well realize two things: There is no way out except through intervention or recognition of Cuban independence, and either course is likely to lead to war."

This advice comes from Havana on the best of authority.

Squadron Leaves Hampton Roads.

HAMPTON ROADS, Jan. 15.—The strongest squadron ever assembled under the American flag steamed out from Hampton Roads and headed southward this morning. The destination is the Bahama channel between the Bahama Islands and Cuba. Admiral Seward's instructions are to make Key West, five hours run from Havana, his headquarters for the rest of the winter. Powerful as this squadron is, it does not include six warships which are already in the gulf waters near Cuba.

All Quiet at Havana.

WASHINGTON, Jan. 15.—The last news from Consul General Lee came to the state department late yesterday and was at once sent over to the white house. It went to confirm the previous reports and was a simple statement by General Lee that yesterday all was quiet in Havana.

DISPUTED TERRITORY.

Commissioner Smith Runs Up the American Flag in Alaska.

VICTORIA, Jan. 15.—Collector of Customs Milnes is in receipt of a letter from Skaguay in which it is alleged that Mr. Smith, United States commissioner for Dyea and Skaguay, claims a strip of land three miles down from the head of Lake Bennett, which is near the boundary as defined by the United States and which would give the United States control of the territory from the coast to the lake.

The commissioner, the writer alleges, has ordered all locators of lots to have them recorded with him. A party of Americans, the writer says, followed the commissioner's direction by hoisting the American flag just below the police barracks where the British flag was flying. The Canadian mounted police demanded an explanation and after some parleying the flag was hauled down and an apology tendered.

The same letter contains information that Bernard Moore is having more trouble with squatters on land which he claims at Skaguay. Early in the present month, it is alleged, he turned out with an armed force and drove squatters off the land. It is also stated that some firing was done, but nobody was hurt.

STATE'S TESTIMONY IN.

Luetgert Will Now Have a Chance to Prove His Innocence.

CHICAGO, Jan. 15.—Direct testimony on the part of the state against Adolph L. Luetgert, the alleged wife-murderer, was finished yesterday. Dr. Dorsey's cross examination by attorney Harmon resulted disastrously to the defense, the sausage-maker's lawyer bringing out emphatic reiterations of matter material to state's case.

COMPOSITOR'S CRIME.

Shoots His Sweetheart and Kills Himself Because of Jealousy.

CINCINNATI, Jan. 15.—Louis Alfeld, a compositor at the Enquirer office, shot his sweetheart, Minnie Pachner, inflicting a fatal wound, and then shot and killed himself. Jealousy is supposed to have been the cause. They had had a brief quarrel just before the shooting.

Frances E. Willard.

NEW YORK, Jan. 15.—Miss Frances E. Willard, the chief executive of the Woman's Christian Temperance union, arrived in this city yesterday. She expects to remain here several weeks looking after temperance work.

SPREADING.

Tuberculosis Reported to be on the Increase Among Ohio Animals.

COLUMBUS, O., Jan. 15.—The Ohio State Veterinary Medical society, which convened in this city, had submitted to it a report on contagious diseases among domestic animals in Ohio. The committee reports an extraordinary prevalence of tuberculosis among cattle, horses, sheep, hogs and other animals in this state.

The disease is not confined to animals in any particular part of the state. Its germs have been detected all over the state. The disease seems to be pretty general.

STOLEN CHECKS.

New York Banks Notified to Look Out For Them—Some Have Been Raised.

NEW YORK, Jan. 15.—The banks of this city have been notified that a large number of checks had been stolen from letterboxes in Detroit, Buffalo, Minneapolis, St. Paul, Toledo, Cleveland, Kansas City and Milwaukee by an organized gang of thieves. Some of the checks have been raised and altered by means of acids. In several instances the thieves have been successful in getting the checks cashed.

Jockey Club Stakes Closed.

LOUISVILLE, Jan. 15.—Entries to the spring stakes of the new Louisville Jockey club closed today. Eleven stakes will be run during the 15 days, beginning May 4. Three of these events—the Kentucky derby, \$80,000, Clark stakes, \$4,000, and the Kentucky Oaks, \$3,000,—were closed some time ago.

What Kurtz Says of the Threat.

COLUMBUS, O., Jan. 15.—C. L. Kurtz, leader of "the combine" in the fight against Senator Hanna, is quoted in an interview as saying in reply to the threat to remove him from the Republican national committee: "I was elected by the Ohio delegation and no one else has the power to remove me."

Did From Bursting a Blood Vessel.

Narrow Escape.

SULLIVAN, Ind., Jan. 15.—George Bass, who conducts the McCammon House barber shop, had words with Charles Lancaster, a barber employed by him. Lancaster drew a revolver and fired at Bass, the bullet just grazing his cheek. Lancaster has been arrested.

Barn and Tobacco Burned.

ENGLISH, Ind., Jan. 15.—Donald Granger's large tobacco barn burned with 7,000 pounds of No. 1 tobacco and a lot of lumber, intended for a new house. The loss, independent of the barn, which was in good condition, will net \$1,200. There was no insurance.

Hogs Attacked Him.

ENGLISH, Ind., Jan. 15.—While in a pen killing hogs, Samuel Peebles was thrown by one of the animals and, before he could be rescued, was badly lacerated on head, body and legs by the hogs, which attacked him viciously.

Will Try Again.

SOUTH BEND, Ind., Jan. 15.—Despite the defeat of the curfew ordinance, local agitators, encouraged by action in Indianapolis and Muncie, will have the measure reintroduced.

Indiana Postmasters.

WASHINGTON, Jan. 15.—Indiana postmasters were appointed yesterday as follows: Mosby, America E. Mosby; Watkins, Charles Woods; Waverly, Cyrus W. Mackenzie.

SEYMOUR, Ind., Jan. 15.—William Sparks of near here is dead. Several days ago a horse, frightened by a dog, kicked Mr. Sparks in the stomach. He died in great agony.

BOARD OF EDUCATION**Colleges Said to Have Agreed Upon a Reorganization.****OLD PENSIONER DISAPPEARS.**

Gritty Young Woman Who Assumes Her Disabled Father's Duties as Mailcarrier. Unknown Young Man Killed at North Vernon by Cars—Burst a Blood Vessel. Raised Gas Rates.

INDIANAPOLIS, Jan. 15.—The state board of education adjourned yesterday till next Friday when another meeting will be held for the completion of an educational bill which it is desired shall receive the support of both the state and nonstate colleges. It is understood there has been an agreement between the two sides by which the state board of education will be reorganized by giving the nonstate colleges two representatives on the board and the county superintendents but one. To make this room the two city superintendents and one of the state college representatives will be dropped. The details of the plan have not as yet been made public.

AGED COUPLE WED.

Groom's Third and the Bride's Fourth Venture.

INDIANAPOLIS, Jan. 15.—A marriage return was made to the county clerk's office yesterday which shows Henry M. Whitinger, 63 years old, a farmer of Nora, and Esther Jane Hahn, 80 years old of Broad Ripple, were married Jan. 12 by the Rev. George W. Gatter at Broad Ripple. The return shows that this was the third marriage of the bridegroom and the fourth marriage of the bride. The bridegroom was born at Nora, while the bride's birthplace was Millersburg, Ky.

Bank Directors' Statement.

TERRE HAUTE, Ind., Jan. 15.—The directors of the National State bank of this city have made the following statement regarding the troubles of ex-Cashier Donaghoe: "The directors of the National State bank authorize the statement that the causes leading to the dismissal of Mr. Donaghoe in no wise involved dealings with Russell B. Harrison or his road."

Pensioner Disappears.

DANVILLE, Ind., Jan. 15.—Randolph S. Beck, who came here last summer from the Marion Soldiers' Home and married a Mrs. Alexander, has mysteriously disappeared. Last December he went to Indianapolis to draw his pension and he never came back. His wife considers herself deserted. Beck's wife is aged 30, one-half of his own age. His pension amounted to \$17 per month.

Fell Under the Wheels.

NORTH VERNON, Ind., Jan. 1.—An unknown young man about 20 years old, well dressed, with smooth face, and weighing about 160 pounds, was instantly killed in this city yesterday. He attempted to board a westbound freight train, and slipping under the wheels was cut in two.

McCoy and Hardenbrook.

AUBURN, Ind., Jan. 15.—Vernon Hardenbrook of Walkerton, heavy-weight pugilist of Indiana, has signed articles of agreement to stand before "Kid" McCoy for four rounds or forfeit a purse of \$400. The contest will occur in Chicago, Indianapolis, Pittsburg or Cleveland. The exact date and place has not yet been determined.

A Fake.

The report that John Sparks was kicked by a horse yesterday and killed turns out to be a fake as Sparks is in town today "without a scratch" as he put it. All the the Republicans has to say about it is that the report was published in good faith and it was a good "item" where true or no.

It is a plain fact that twenty per cent deaths in our larger cities are caused by consumption; and when we reflect that this terrible disease can be forestalled by Dr. Bull's Cough Syrup, shall we condemn the sufferers for their negligence, or pity them for their ignorance.

Death of Miss Frances E. Smith.

This morning Jay C. Smith received a message announcing the death of his sister, Miss Frances E. Smith, last night at Nashville, Tennessee. Two days ago a telegram came stating that she was seriously ill. Her father, Rev. T. C. Smith, of Alexandria, received like information and left at once for her bedside. He found her near death's door, but he was not all gone. There seemed to be a slight change for the better, but this was only temporary. She died some time during last night. Her father left Nashville this morning with the body and arrived here this afternoon at 3:35 o'clock. He was met at Louisville by Jay C. Smith. The remains will be taken to his home on North Chestnut street immediately after the arrival of the train. Monday the remains will be taken to Franklin for burial.

Miss Frances E. Smith was born at Middleport, O., Nov. 15, 1872. When she was a small girl the family moved to Aurora, Ind., where they resided ten years. Miss Frances entered Franklin college, where she took the full classical course, graduating in 1894. The next two years she spent as a teacher in Selma University, at Selma, Alabama. On account of ill health the next year she remained at home, rendering valuable assistance to her father in his pastoral duties at Alexandria. Last fall she accepted a position in Roger Williams University, at Nashville, where she did, as she always had, most acceptable work. She spent her last holiday vacation here with her brother, having left for her post of duty only two weeks ago. Her sudden death is a sad blow to the family and her large circle of friends.

BUSINESS NOTES.

Sold at Auction.

The Crothersville butter and cheese factory was sold at public auction, Saturday. James Lewis, one of our prosperous farmers, was highest bidder, receiving the plant for the sum of \$905. The establishment in the first place cost \$1,650. Mr. Lewis has a bargain which will net him some little gain if he devotes as much energy and foresight as he has given to farming. In fact we are glad it fell into hands so that it will help the business interests of the town as it has done in the past. —Crothersville Commercial.

Use of Crude Oil By B. & O. S. W.

For some time the Baltimore and Ohio Southwestern Railway Company has been experimenting with crude oil for kindling fires in locomotives, in place of using cord wood, and the results obtained have been so satisfactory that it will hereafter be used on the whole line.

During the month of November, 1897, at the company's shops, which are located at Washington, Ind., and Chillicothe, O., 1226 fires were started with crude oil, at a cost of \$17.32, or 141 cents per fire. To have started the same number of fires with wood the cost would have been \$306.00, or \$24.96 cents per fire. This represents a saving of \$288.68, and is very satisfactory.

What Advertising Is.

Advertising may be done in a thousand ways. Any method which tells anybody about anything is advertising. Advertising is anything which conveys a message about a business or a product.

If a man opens a store and tells his friends about it, he is advertising the store.

If he prints his announcement on cards and hands them to the passerby, he is advertising the store.

If he puts his sign above the door, or goods in the window, he is advertising the store.

If he makes a hundred duplicates of his sign and nails them on fences or dead walls where people can see them, he is advertising.

If he joins a church or a club, or a secret society, his name and his business will become known, and he will still be advertising.

If he causes his sign or his card to be reproduced and printed in a newspaper, he is doing the same thing that he did when he tacked the sign on the fences or handed the card to the passerby. He is putting his sign into the house of every reader of that paper.

This hypothetical man is a retail dealer. He is in direct contact with the people to whom he seeks to convey the news of his enterprise. The principle is exactly the same with the maker or handler of goods that are to have a more local sale.

Of all the ways of advertising, the best, most certain and cheapest is that of using the columns of a good newspaper. Intelligent people with money to spend always read the papers—Press and Printer.

CHURCH NOTES.

There were three accessions to the Baptist church last night.

Rev. B. F. Martin and wife of Coopersville, went last evening to Walesboro where he will begin a series of meetings.

CAN'T GET REST.

Sleeplessness Common Among the Aged.

Thin, Pale, Inactive Blood the Underlying Cause.

Restful Sleep from Better Blood Supply.

Paine's Celery Compound Fills the Arteries.

Multiplies Number of Vital Red Corpuscles.

There are degrees of sleeplessness from the wide awake state to the sleep which does not refresh and has in it only the mockery of rest.

Such sleep is not tired nature's sweet restorer. Dreams have power to torture and to depress. Sleep, therefore, is not always rest, but trouble, and a troubled sleep brings to the brainworker loss of power for thought and labor.

It is a well known fact that for any part to perform actively its duties, it must have an abundance of blood; but when the power of locally regulating the supply of blood in the brain is impaired because of insufficient nerve power the tired brain grinds the same old grist over and over till nervous prostration, paralysis or hysteria ensues.

The cause of sleeplessness is so clear that the cure is equally apparent. The nerves must recover their grip. The health wrecking laxity of the blood vessels must be corrected. The answer to how this is to be done is:

Feed the exhausted nerve tissue with Paine's celery compound.

By thus acting on the nerves Paine's celery compound is able to regulate the blood supply and permanently banish sleeplessness that shortens so many lives, especially among those beyond middle age. In addition to this indirect control over the circulation, Paine's celery compound directly increases the amount of blood in the arteries and arteries the purifying organs to drive out impurities that often lurk in it undeveloped for years till age or a "run down" condition allow them to get the upper hand.

A pale, languid woman is not more of a lady than a rosy, robust one.

Women leading lives of imperfect health, with pains and aches running riot through their "run down" bodies, are often ignorant of the fact that it is not a specific for nervousness or rheumatism or stomach trouble that they need, but fundamental building up of every tissue of their bodies and a thorough cleansing of their blood. The strengthening of the constitution and the eradication of latent disease that Paine's celery compound achieves leaves no fear of that treacherous partial recovery that keeps one always afraid of relapse and sudden break down.

Paine's celery compound rests on the wise modern conclusion of the best medical thought that the remedy that invigorates the entire system and purifies it, is the only safe cure for such local diseases as rheumatism, neuralgia, sleeplessness, eczema, headaches and blood diseases.

It is a common harmful idea that health keeps pace with strength. People seem to think that one can determine the health of persons by measuring their arms. Health means absence of pain and the presence of more or less nerve intensity and enjoyment in the mere fact of living.

All this implies abundantly nourished organs and blood unhampered by diseased humors.

Paine's celery compound is especially valuable for recruiting the strength and spent energies of men and women advanced in years. It is the one preparation considered worthy the name of a true nerve food and blood remedy by physicians throughout the country. It is prescribed by them in every state in the Union to tone up the system, regulate the nerves and restore health and strength.

A CRUEL OPERATION.

There are many articles of daily and hourly use constantly passing before our eyes and through our hands about the production of which we know comparatively little or nothing. An interesting example of this is tortoise shell, from which combs and hairpins are made, besides a multitude of trinkets for the dressing table, the desk and the pocket. Pierce crusades have been instituted in recent years against the slaughter of birds for the procurement of their plumage for hat trimmings, and yet I venture to say that the process of procuring tortoise shell is a cruelty to animal life which far exceeds that to which birds are subjected.

In the eighties I happened to be down in Bluefields, on that awful Mosquito coast, and at the invitation of one Manuel Latona, who was the owner and captain of a small schooner, went with him to the cay El Roncador for tortoise shell. This cay gets its name (which in English would be the Snorer) from the exceedingly angry surf, which can be heard for a long distance breaking over the reefs. This is the cay on which a couple of years back the historic old ship Kearsarge was wrecked and battered to pieces. El Roncador is nothing more or less than a typical coral island, such as is found throughout the southern seas, three-quarters of a mile long, perhaps, and not more than a quarter of a mile across its widest part. Surrounding the island is a reef, inside of which the water is smooth and rather shallow, and at the bottom of this shallow water there grows a peculiar kind of sea grass which is a dainty food for the turtle tribes. There is also found on the top of the water inside the reef a sort of small blubber fish, called in Spanish dedales, or thimble fish, which is perhaps the greatest delicacy of the entire turtle menu.

The turtle whose shell is valued in commerce is a small species known as the hawk bill. There are other varieties which come to El Roncador to spawn, but they are not molested. During the night the turtles crawl up on the shore to lay their eggs, each female depositing on an average about 70. To do this they dig holes in the sand about two feet deep and after laying the eggs cover them over so deftly that it is almost impossible for a novice to find them. These eggs are really delicious when roasted, but the turtle fishers are careful not to destroy those they do not take for food, so as to promote as much as possible the increase of this valuable sea reptile. At night the fishers conceal themselves along the shore as well as possible, and when the turtles come up on top of the water on the beach they rush forth and turn them over on their backs with iron hooks, leaving them secure in this position until morning.

The tortoise shell of commerce is not, as is generally believed, the horny covering or shell proper of the turtle; it is the scales which cover the shield. These scales are 18 in number, 8 of them being flat and the other 5 somewhat curved. Four of those that are flat are quite large, sometimes being as much as 12 inches long and 7 inches broad, nearly transparent and beautifully variegated in color with red, yellow, white and dark brown clouds, which give the effects so fully brought out when the shell is properly polished. A turtle of average size will furnish about eight pounds of these laminæ, or scales, each piece being from an eighth to a quarter of an inch in thickness.

It is the method by which these scales are loosened which is the repulsive part of the business. The turtles are not killed, as that would lead to their extermination in a very few years. After capturing them the fishers wait for daylight to complete the work. The turtles are turned over again in their natural position and fastened firmly to the ground by means of pegs. Then a bunch of dried leaves or sea grass is spread evenly over the back of the turtle and set afire. The heat is not great enough to injure the shell, merely causing it to separate the joints. A large blade, very similar in shape to a chemist's spatula, is then inserted horizontally between the laminæ, which are gently pried from the back. Great care must be taken not to injure the shell by too much heat, and yet it is not forced off until it is fully prepared for separation by a sufficient amount of warmth.

The operation, as one may readily imagine, is the extreme of cruelty, and many turtles do not survive it. Most of them do live, however, and thrive, and in time grow a new covering, just as a man will grow a new finger nail in place of one he might lose. The peculiarity of the second growth of shell, though, is that instead of reproducing the original number of 18 segments it is restored in one solid piece.

To see the operation of taking the shell from the living turtle once is almost all a man of northern breeding wants of it, and if the helpless reptiles had the power of voicing their sufferings under it their cries would tell of as heartless a business as man has yet engaged in.—New York Post.
